Subscription \$1.50 per year in advance
Single Copies 1 Cent.

Printed by Puritan Linotype, Boston

BOSTON, MASS., JANUARY 11, 1910.

On account of the widespread interest taken in the municipal election today, we are printing on the last page a ballot with the names of the candidates for mayor. Indicate your choice on this ballot, tear it out, and leave it in the Tech notice box in the Union; the results will be tabulated and published in tomorrow's Tech. Polls close at 5 P. M. Let us see how we would run the city.

Attention must again be called to the poor condition of the Union living room. It does not seem that there is any attempt to keep the magazines up to date or in order. They are scattered all over the place, and not infrequently are torn all to pieces. A specific example of this is the "Life" of January 6, which is now in a worthless condition. It does seem that the committee appointed to attend to this matter could better attend to it if it kept at it a little harder.

In the columns of The Tech of last Saturday there was announced the result of the first day's campaign of the T. C. A. for funds to build up and carry on their proposed work. This is an important undergraduate activity, carried on by Institute men. It is altruistic work, and takes time and attention. The officers of the Association are giving this time. They want the support of the Institute, and are reasonable in expecting it. We hope that Technology will come up to the record of other New England colleges in giving this support.

THE "DOPESTER"

Good skating!

How about the sleighing parties now?

Indoor meet tomorrow night.

Every fellow in the 'Stute should go up to the Gym tomorrow and "root" for his own class. Let us have some class spirit. Everyone out.

Watch the mile and the quarter mile races. There should be some surprises.

The Lowell Textile game cheered us up a little, but we want to feel still better after the Dartmouth game. Help us out you basketball men. Get into the game good, but "cut the dirty." Any "slugging" will do more to give the school a bad reputation than most anything else.

Looks bad for the hockey team, but still let's hope for better luck. Never say die.

What is the matter 1912? Don't you know how to play basketball. Of course you do, but what you want is practice. Come on now, get out.

BIOLOGICAL NOTES

Professor E. B. Phelps will address the Engineers' Club of Philadelphia on Jan. 15 on "The Disinfection of Water and Sewerage." This is the same topic upon which Professor Phelps recently spoke before the sanitary section of the Boston Society of Civil Engineers, and more recently before the New Jersey Sanitary Association.

Dr. P. G. Stiles, instructor in physiology, addressed the Home Economy Association at their recent meeting on The Relation of Physiology to Courses in Home Economics.

Mr. S. C. Keith, Jr. demonstrated before the Biological Colloquium at its last meeting a novel and ingenious form of sanitary drinking fountain which he has invented. At the same meeting Mr. Selskar Gunn, health officer of Orange, N. J., spoke on Certain Sanitary Problems Dealt With by the Board of Health of a Small City.

ANNOUNCEMENT

The board of directors of the class of 1913 announce the unanimous election of William de Young Katenberger to the position of manager of the Freshman track team and also the unanimous election of Charles Gerard Fallon to the position of manager of next year's 1913 football team. The elections were held at the meeting of the board, at four o'clock Monday, in the Union.

WIRELESS SOCIETY

Secretary Woehling of the Wireless Society is completing the list of charter and regular members of the society, and wishes all men who have not paid their dues to do at once. The list of members is being compiled for use in the 1911 Technique. All names appearing must be full members with dues paid. Those men who have not yet obtained their shingle can get them from the Secretary.

COURSE PICTURES

The course pictures which were to be taken by the Tech will have to be postponed. The date on which they will be taken will be announced later. The Course IV. picture will be taken Friday as scheduled at 1.10 P. M., on Rogers steps.

CURRENT EVENTS

The anti-conservationists will try to have the Forest Service taken from the Department of Agriculture and transferred back to the Department of the Interior.

Tremont Temple was crowded to its limit, and overflow meetings were held in Lorimer Hall and in the Bromfield M. E. Church to demonstrate enthusiasm over the candidacy of James J. Storrow for mayor.

A volume under the title of "Maroon Tales" has recently appeared at the University of Chicago.

FOWNES GLOVES

are a "good thing to have on hand," and all good dealers have them on hand.
