BOSTON, MASS., JANUARY 13, 1910.

By adopting the plan providing for the "Committee on Activity Finances," the Institute Committee has materially added to the welfare of the various student activities here at Tech. It now requires of the activities to pay only a nominal support. The need for such a committee is obvious, not that there has ever been a slight question of the right of the Union to receive money, but that the efficiency and ability of competent, successful business men would often save the financial losses. More efficient business methods and more efficient and unified methods of keeping accounts will certainly follow the formation of such a commission.

In a short time you will be on a week's vacation. During that time you may want to know where some of your friends are. Points of interest as described in the weekly reports will certainly follow the formation of such a commission.

D. P. Gaillard

(Continued from page 1.)

DOPESTER'S LAST SPASM

Records broken, but we got some new ones.

That thirty-five yards dash, ending at the stone wall of the Gym., is about the hardest run and about the most dangerous as any fellow wants to run.

Penn was the only one in sight in the hurdles and Allen the same in the pole vault.

The running of Mills last night was certainly a revelation; just thinking of running the mile in record-breaking time and then defeating the half-mile race in the Institute in another breaking race.

The attendance at the Indoor Meet was a disgrace to the sporting men of the Institute, and shows in what a low place the spirit of the Institute has descended in regard to athletics. What is the matter, fellows?

Important Notice—The "Dopester" hereby announces that after today he is officially DEAD.
