UNION STILL SHOWS
DEFICIT FOR YEAR

INCREASED FALL
TO MAKE UP FOR VACATION LOSS

The first two weeks in January were the best in the school year and the accounts showed a most encouraging profit. The next two weeks, however, showed a decline, a fact evidencing the truth of the saving on the other two. This is easily explained by the fact that the semi-annual examinations were then in progress and many students were not in the city during these times, thereby greatly reducing the receipts, while the expenses remained constant.

At the end of the term the total loss on the Union was $326.06. This is a little less than the deficit at the end of October, after the most discouraging period of the year, but the attendance has been more satisfactory since that time, and if it had not been for the vacations at Christmas and mid-year, a much larger satisfactory statement would be shown.

So far this term the attendance in the dining room has been as satisfactory as for the first three months. The deficit is a net profit of over $34.00 sh. on the 35 days that it was open.

Being a member of the House, which is made up by Mr. Scharff to appear in The Tech on Tuesday, Feb. 15, will certainly have to hustle the men, and thus make a secure footing with the rest of the men.

FUTURE PROSPECTS

The attendance at the House, after the first week, has not been greatly changed, and if it had not been for the changes in the schedule of the week, the House would have shown a deficit exceeding the profit on dining room.

Now Being Constructed For
Naval Architectural Society

Under the direction of Prof. Peabody, the Society is being set up in place of the old Norwich model basin. The model has been chosen for the work, and the building will be finished as rapidly as possible.

The main duty of the publicity department is to place the show before the public by means of advance press work. If you have no talent as an actor, you can at least make a try for a position on the staff of the management. The men who make assistant this year and whose work is satisfactory throughout the year becomes first Assistant Manager the next year, and Manager of the department.

Several men report for asst. pub. man.

The Tech vs. Salem at Salem, on Feb. 26, after two days after the Salem meet, against Amherst will be held at the Gym. Nothing much is known about the Amherst team, but there is sure to be a pretty exhibition of apparatus work, and everyone should turn out to see it.

CATHOLIC CLUB

There will be a meeting of the Catho-
lic Club on Wednesday, Feb. 16, in the Union at 4:15 P.M. The dance com-
mmittee will report, and will give an outline of its plans.

Mr. A. S. Batchell, President of the Chamber of Commerce, will give an in-
troductory talk on the work and pur-
poses of the Chamber of Commerce.
Mr. Batchell is a speaker of renown, and his talk is certain to be interesting.

CONVOCATION TODAY
FOR BARON IKUKI

As Educator, Prominent Both In Japan And This Country

Baron Ikukichi of the Japanese Imperial University will address a con-
vention in Huntington Hall at two o’clock today.

As a leader in education, Baron Ikukichi stands prominent even out-
side his own country. Since his edu-
cation at Cambridge University, Eng-
land, he returned to his native land and has made an administrative work in education. In that university from which he graduated in 1893 he held a high degree.

Now he has occupied the posi-
tion of Minister of Education, which is almost equivalent to a cabinet office here. He was formerly chancellor, or president of the University of Tokio, and is and has been made president of the Imperial University of Kioto.

At the meeting of the New York So-
ciety, he is speaking throughout the country. In previous speeches, he has dealt with the relationship of Japan and America. In at least one, he has discussed the recent diplomatic move-
very concerning the neutralisation of the Sino-Japanese war, a move which may look upon as a possible move for a return of Japan’s hard-earned posses-
sions.
