FRESHMEN VS. SOPHOMORES
INDOOR TRACK MEET

This afternoon at the Gym the freshmen and sophomores will clash in the first dual meet of this kind ever held by classes in the Institute. The class spirit is keen and great contrasts will be the order of the day. The freshmen have (formed) a track team and are thus prepared to meet the older classmates with an organized resistance.

The sophomores have had a year's experience on the track and have several very smart runners among their numbers. The ability of the freshmen is practically unknown, except for the results shown by sophomore high jumpers; and a remarkable showing was made in any single event.

There are a number of good sprinters in both classes, and the closest unoffical will probably be in the dashes. The field events may go to the sophomores as the freshmen are weak at that point.

The following results have been doped out by a track man, and will be interesting to see how near they come to the actual results.

The 220-yard dash will probably go to Davis, 220 1-2, and to Grant 220 1-3, and to Reed 220 2-3.

The 440-yard dash will go to Davis 440 1-2, Grant 440 2-3, and Milliken 440 2-4.

The mile run—Van Alstine 1912 will probably take the half-mile also. For second and third places several men will make strong bids—the sophomores having Van Alstine and Gottleber, and quite a few of the freshmen.

The hurdlers seem to be a unknown factor. All the places are doubtful; but the winners will probably be in Grant 1912, and Hamilton 1912. There will be an innovation by having hurdlers instead of high hurdles after this afternoon.

Doubles are not sure to make an appearance, but the winners will probably be Grant 1912 and Reed 1912.

The 200-yard dash is conceded to Benbow 1912, the 440-yard dash to Van Alstine 1912, the mile run to Bylund 1912, and Milhollen 1912 dividing the other places.

The shot put will be between Hamilton 1912 and Benbow 191, with McLeod 1912, Bray 1912, and Chalmers 1913 contesting for second place.

The pole vault is expected to go to Mangum 1912, with H. Greenleaf 1912, and Davis 1912 taking second and third respectively.

The hurdles seem to be a unknown factor. All the places are doubtful; but the winners will probably be in Grant 1912, and Hamilton 1912. There will be an innovation by having hurdlers instead of high hurdles after this afternoon.

The double-lead 1912 is sure to take on Thursday, with Trull 1913 close second, Farris 1913, and Colburn 1913 probably dividing the other places.

The music for the occasion will be furnished by A. P. Threlkeld's orchestra, which rendered a fine program. Refreshments will be served during intermission by the Union management.

The brilliant success of the whole affair is due to the enthusiasm with which everything was carried out. The officer of freshmen and his committee, selected from among the "men-of-the-class," the ball, apparently will be successful financially, and if so, this will be an encouragement to the freshmen of future years to hold an annual military hop.

The following will be a list of the officers whose work helped to make the ball a successful function:

Floor Director, Major John A. Herlihy.
Assistant Floor Director, John S. Beiridge.
Aldus, Capt. Louis E. Guen.
Aldus, Capt. L. M. Vassar.
Aldus, Capt. Philip A. Lang.
Aldus, Capt. Frederick H. Bisby.
Lentor, Lieut. Charles W. Walker.
Lentor, Lieut. L. W. Chandler.
Lentor, Lieut. W. H. Liston.
Lentor, Lieut. David McGlash.
Lentor, Lieut. W. S. Atwater.
Lentor, Lieut. Ernest W. Davis.
Lentor, Lieut. J. B. Pratt.
Lentor, Lieut. Roger H. Smith.

1912 BASEBALL

Brittany announces her report in the Gym
Wednesday, Thursday and Friday afternoons.
All out. W. W. Allen, Mgr.

HISTORY OF CHEMISTRY.

The Lecture in the History of Chemistry will begin after 11.30 on
Friday. For one or two young men. All who wish to attend should see Professor Bigelow at the next exercise.

C. E. SOCIETY MEETING WEDNESDAY, APRIL 4, 4.15 P.M., ROOM 11 ENS.

Mr. H. L. Osborn, M. I. T. '99, a consulting engineer in hydraulic work will speak on the Location and Design of Hydraulic Power Houses.

LUNCH

All Clubs
Proofs will be given to all Clubs having
inserts in Technique at the Cage. If proofs are not called for in five days the editor cannot be responsible for the copy.

C. E. SOCIETY MEETING WEDNESDAY, APRIL 4, 4.15 P.M., ROOM 11 ENS.

Mr. H. L. Osborn, M. I. T. '99, a consulting engineer in hydraulic work will speak on the Location and Design of Hydraulic Power Houses.

LUNCH

One drawing set.

Members of C. E. Society—who have not yet paid their dues should do so at once in order that their names may be included in the list of members in Technique. No names of men whose dues are not paid will be included.
