CHESS TEAM WINS MATCH FROM BROWN

Team Of Triangular League Defeated By Score Of
3 1-2 To 1 1-2

In the first match of the season the chess team won a decisive victory over the Brown University at Providence on Saturday. The final score was 3 1-2 to 1 1-2 and Brown was the nose-team throughout the entire 31 moves of the fifth board.

Brown drew first blood for Tech, winning by a clever position, although being down two pawns on the second and fifth boards. The win was a result of the opening the Ruy Lopez formation was used, and the game was finished after only thirty-seven moves. Very soon after that Kaspar won a victory after sacrificing a knight for three pawns, thereby breaking up his adversary's defense. Bates, using the Queen's Gambit, was running a close second, but being put on the defensive, being a rook ahead and threatening to queen two pawns when his opponent resigned. Of the two remaining one was a draw and the other a loss, both being long, lough games; the Brown team won a decisive victory over the Tech team by a score of 1 1-2, which was all the more creditable considering the opening was used, and the game was finished in almost exactly three moves.

Mr. Kaspar, who won the toss-up and chose the white pieces, was in the best form of the two players and won the game. Mr. Kaspar was in the leading position, and Tech defeated Tech by a score of 1 1-2. Mr. Bates, who was in the leading position, and Tech defeated Tech by a score of 1 1-2. Mr. Bates, who was in the leading position, and Tech defeated Tech by a score of 1 1-2.

SUMMARY:

Tech, 1 1/2
Brown, 1 1/2
S. B. Benson, 1/2
H. S. Benson, 1/2
Bates, 1/2
Kaspar, 1/2

SOPHOMORES WIN UNDER-CLASS TRACK MEET

Freshmen Outclassed In All But Distance Runs—H. S. Benson, Star Point Gainer

On Wednesday afternoon at 4:30 the Civil Engineering Society will hold a regular meeting in room 11 B. The speaker of the afternoon will be Mr. H. L. Coburn, a well known graduate of the Institute in the class of '98. Course 11, and will talk on "Hydraulic Power Houses."

Mr. Coburn entered the Institute in the fall of '93, but left before graduation and for eleven years was engaged in engineering practice. Returning to the Institute last fall, he is now a student in Course 11, and as an undergraduate, Mr. Coburn is doing extremely well. He is a member of the Engineering and Societies and is one of the most popular members of the class. He has taken an active part in the senior class, and his work is of a high order. As an undergraduate, Mr. Coburn is doing extremely well. He is a member of the Engineering and Societies and is one of the most popular members of the class.
