Mr. Albert M. Kanrich, a man very widely known in the musical circles of New England, is teaching the chorus and principal of one of the well-known local schools in Connecticut, where he needs no introduction. He has done much work and has arranged concerts and programs for such work and his arrangements of music for orchestras are sought for throughout the state. He has also been a member of the New England Oratorio Society and the Boston Symphony Orchestra, the former of which he has held the position of conductor.

Mr. Kanrich began his career as a conductor in the early 1900s, when he was given the opportunity to lead the chorus and orchestra at a very enthusiastic meeting. He has since gone on to stage the first corps of cadet shows until they gave up amateur performances given by the respective lodges. The Knights of Columbus have employed him for two years, when he was introduced to the public. He has done a great deal in the field of cheapness of construction and cheapness of labor.

In the monthly meetings held by the E. H. S. Club, Mr. Lebon, Mr. Tower, and all the faculty members present and following a pleasant dinner and several speeches, an active business meeting was held and extended plans were made for the coming season.

At the close of the dinner Mr. Lang, the president, said that Mr. Thomas, Mr. Lebon, and Mr. Tower, all teachers at the High School, had been invited, but were unable to be present on account of illness. Mr. Barrow, the principal, said that he had been introduced to the public, and had employed him for some time. He hoped that he would continue to assist in the production of the musical performances given by the respective lodges.

The Knights of Columbus have employed him for two years, when he was introduced to the public. He has done a great deal in the field of cheapness of construction and cheapness of labor. But these successes are not by any means Mr. Kanrich's only claims to fame. The high school in this vicinity is unique and invaluable to the community.

Mr. C. C. Mason, the president of the club, said that Mr. Kanrich's only claims to fame were his success in the field of cheapness of construction and cheapness of labor.

Mr. C. C. Mason, the president of the club, said that Mr. Kanrich's only claims to fame were his success in the field of cheapness of construction and cheapness of labor.
