Boston. Mar. 9.—A great strike has been decried by the ballots of the union and non-union men on fifty railroads running out of Chicago. The official count of the vote recently taken was announced yesterday afternoon. It shows that 99 per cent of the union men and 89 per cent of the non-union men have voted to go out. The railroad affected branched from this city throughout the West, northwest and northeast. If a compromise is not brought about the labor war which will follow will involve all of these and bring the industrial history of the country has ever known.

Charlestown, Mass. Mar. 9.—Four patrolmen from the Charlestown police station, Officers Wadleigh, Johnson, Chauncey and Melcher, formed a human ladder and gained entrance to a burning three-story wooden building at 36 Verta St., Charlestown, yesterday. They rescued nine occupants from the flames, which swept the apartment.

Cambridge, Mass. Mar. 9.—A handsome new sail, 61 feet in length, American type, was delivered to the Harvard oarsmen yesterday. It is the gift of Mrs. Robert Bacon and it was built in Putney, England, by George Sino & Sons, the renown boat builders. All seats are directly over the keel instead of being alternately out to port and starboard, as in the English boats.

Boston, Mar. 9.—After a heart-to-heart talk with United States Senator Arny, French, which lasted over four hours, George W. Colman yesterday had the satisfaction of knowing that at least one other person knows the full story of his downfall.

All of the escapades which have been characterized as a sheer loveliness, as the money not in his own, the many stock speculations, the bedding of the young, the eating, by an unscrupulous, unclean man, were, in part, a result of the evidence upon which the federal grand jury will sit at its present sitting.

The conclusion of the defaulter was voluntary and, although the federal officials will not say what caused him to act, other persons were implicated, it is known that information was given by Colman which will lead to the throwing out a drug cast which will result in further police disclosures.

Wellesley College will no longer or permitted to take long walks in the streets. The student governing body, an organization already noted in the public eye and in a few cases under the con-

summer evenings.

SMOKELESS PISTOL FROG SHELLS

There are more "Leader" and "Repeater" loaded shells used than any other brand. Their superior shooting is the reason why. For pattern, penetration and uniformity they are unequalled. They hold all important records and trophies.

CHICAGO, Mar. 9.—The polls close this afternoon at four.

Is the class of 1912 alive?

Out of 518, less than fifty have had the gumption to get a ballot and put their choice in the hands of the graduates or other members of the Institute and its activities in the business life.

The way to do this is to have periodic meetings, but the serious personal losses of the period will give the aid of the advice of men, five of whom are alumni, has been secured, committees have been formed and opposite Tech. Union Tuesday's from 12 to 2:30. A students' tailors 14 years.
