HARE AND HOUNDS

(Continued from page 1.)

The freshmen and sophomores came out in force for the run from the gym last week, and will probably form the greater part of this week's crowd, since the Freshman-Sophomore race comes in the middle of next month. This race ranks with Field Day as a test of supremacy of the two lower classes, and much interest should be shown this year especially by the second year men, since a victory in cross-country would, in a measure, relieve the sting of their defeat last fall.

The runs at Hyde Park are particularly popular. The Y. M. C. A. shower bath and swimming pool are at the service of the men, who can appreciate these luxuries to the full, after the dusty (or muddy) trail. Several good courses are laid out in this town, and the Blue Hills and Stony Brook Reservations are in easy reach. The first run of each season is therefore usually held here.

E. W. DeWitt, 1911, chase captain, will be on this run, and all men interested are urged to be ready with running togs for the train which leaves Back Bay station at 2.19.

CATHOLIC CLUB

(Continued from page 1.)

from 8 till 1. Tickets are \$1.50 and invitations are being sent out in large numbers, since it will be an elaborate affair.

All members of the Club have been requested to attend Communion together on Palm Sunday, March 20, in the Cathedral at 8 o'clock.

Mr. Magennis, an architect of national reputation, delivered a stereopticon lecture on Architecture. He explained the reasons why the average man was disinterested and unversed in architectural style, which will be uniform in the various sections of the country because of the fact that the United States is composed of fragments of races, causing a retard of organic church growth. Fifty lantern slides aided Mr. Magennis in demonstrating the quality and styles of architecture in ancient and modern churches as well as their methods of construction.
