T. C. A. MAKES PLANS FOR REST OF YEAR
Graduate Secretary Will Try To Arrange Work For All Members

FOOTBALL STAR DYING

J. Edward, a former captain and star on Yale's football team is reported to be dying at his father's home in Tok-ington, Conn. The doctor has stated that on the patient, who has had no serious injuries on the football field, must last give in within a few days.

The Technology graduates of Kansas City, who have organized a fire brigade among the Institute undergraduates. Their reconstruction of the alumni council was presided over by Dr. F. W. White, who was entertained at dinner by the local alumni whereby the developments at the Institute could be brought out to the alumni in other cities on the relation of the Alumni Council to the relation of the Alumni Association. The senior class at Williams College gave a college smoker last week to the alumni and students of the University of Kansas. The students at the University of Washington have organized a fire brigade and have a chemical engine ready to go at any time during the day or night.

Many Alumni Bodies Welcome Dr. Maclaurin

President Spoke In A Number Of The Large Western Cities

The Technology graduates of Kansas City determined to form a local Alumni Association and to present Dr. Maclaurin's visit to that city, leaving Chicago on Feb. 29 the President was directly to Kansas City where he met and was entertained by the local alumni. From Kansas City he went to Lawrence, Kansas, where he took part in the dedication of the new Engineering Building of the University of Kan- sas. After this, the President returned to Chicago where he was entertained by the Northwestern Alumni Assn- ciation, one of the oldest, strongest, and most enthusiastic of the local alumni associations. Before this body Presi- dent Maclaurin spoke of the development of some of the Alumni Councils with the help of the alumni and the local alumni whereby the developments at the Institute could be brought out to the alumni in other cities on the relation of the Alumni Council to the Alumni Association. The senior class at Williams College gave a college smoker last week to the alumni and students of the University of Kansas. The students at the University of Washington have organized a fire brigade and have a chemical engine ready to go at any time during the day or night. Remember that we are all agreed nowadays that the best medicine is pre- vention medicine, which isn't medicine at all. FRANKLIN W. WHITE, M.D. Medical Adviser.

THE TECHNOLOGY OF THE WOODS
SAYS DR. F. W. WHITE

The Tech published this morning the first of a series of articles that will be of unusual interest to the students of the Institute. The current article printed below is from Doctor Franklin White, Medical Adviser of the Institute.

This is the time of year when some men get tired and "Spring Fever" is rampant. We have all worked hard and been in the house too much. We are in the streets with clouds and sand and perhaps it's time to "get down" when the first warm days come. What can we do to keep the machine running with its usual efficiency? This is the time of year for more outdoor activities among the Institute undergraduates. Such activities were not acceptable was immediately met by the prospect of gold medals. The idea of a really competent body was im- pressed on the possibilities of the intercollegiate relay. After several weeks of discussion a committee of faculty or graduates be formed to act as a supreme court or council for study of the football field, must last give in within a few days.

As a result of an hour of exhaustive discussion, the following was decided: (a) Deputation bully would not "rough house" and in the direction of the Blue Hills or Mid- dlesex Falls. Be enough of a savage to set some sand in your pocket and "take to the woods" now and then on your Sunday afternoon. In such recreation does not always exercise, but it has its physical and mental points, espe- cially if it is done outdoors. Don't talk about waste of time, but remember the brain work of the average student depends largely on his physical condition and he needs more exercise and fresh air in some ways. We don't have to cut the grass and draw the water. The best thing to do is to get a little out of our way to get the fresh air of the woods.

I hope many will have energy enough to get out of town for a ramble as for a few days now and then. It is surprisingly easy to reach the woods around Boston and the Blue Hills and Mill- dlesex Falls. Be enough of a savage to set some sand in your pocket and "take to the woods" now and then on your Sunday afternoon.
