FRESHMAN ELECTED
CAPTAIN OF GYM TEAM
S. S. Crocker To Lead Gymnasts Next Year—W. D. Allen 11 Manager

At the meeting of the Gym. team Monday, S. S. Crocker 1913 was unanimously elected captain of the team for next year. Crocker, who has done very creditable work in all the meets this year, good on the parallel bars and the high bar, W. D. Allen 11, who has been captain for the past two years, is also a member of the team for next year. The team will meet their men back for next season; on the horizontal bar there will be H. S. Gott 1910, W. D. Allen 11, R. Darow 1911 and S. W. Ors 1913; S. S. Crocker 1913 and H. S. Ors 1913 battery positions, work on the horse and parallel bars; on the double bars, S. S. Crocker 1913 and W. D. Allen 11, G. S. Sodo 1913 and B. Darrow 1913; R. W. Denton 11 will swing the clubs again next year; in the tumbling, the Institute will be represented by R. S. Murdock, W. D. Allen 11 and R. C. Jacobs 11. R. C. Jacobs, who was elected captain for next season, did not make the team because he is beginning to get into his studies and went to France, where several hundred architects could do, both at the bat and in the office, according to the team. A number of the freshs were interested in the meet, at which the Tech men are doing a star turn in the technical field. He has a large corps of associates and the work turned out very well.

The meeting opened with song. The first song was "Thee for a number of students interested. Then Mr. Christiansen stated that the meeting was for the express purpose of informing the students at the Institute of the need of an athletic organization. The meeting was held in the offices of the Athletic Association and is open to all interested.

At the meeting of the Tech. Men on Wednesday, March 16, a number of promising candidates were interviewed by the following board:

Dr. Whitney is director of the Research Laboratories of the Co. of Schenectady, which stands at the head of the firm among the great automobile manufacturers. He is a member of an association of automotive engineers, of which he is a member of the board, and has been highly influential in the development of the system and the use of electricity in automobiles. In addition to this the laboratory has done a great deal of work along the lines of pure science. Dr. Whitney will speak on "The field of X-ray work" and will also discuss the problems he has been working on in recent months. The lectures should prove both valuable and interesting to all students interested.

The management found it necessary to blacken the galleries in order to be sure of securing an application blank. If any man does not receive an application blank it means that he is blacklisted or that his name is lost in the mail. In either case he should apply to the management before the blank is lost. The management wishes to emphasize that the blank is not to be used to make an example of men occupying seats illegally, but merely to protect the men entitled to seats according to their classification. A second application blank will be given to students in accordance with the ruling contained in the first application blank.

The Frost Poster will be out next Monday because, as the season is so late, it is a beauty, and is billed to sell rapidly.
