GENERAL NEWS

TELEGRAPH NEWS OF THE MORNING.

WEATHER REPORT.

Washington, D. C., Mar. 23.—Forecast for Boston and Vicinity—Fair with brisk and possibly high southwesterly to westerly winds.

Boston, Mar. 23.—The Tech Cosmopolitan Club gave a reception to President Richard C. Maclaurin last evening at the club rooms at 480 Boylston street. The club now numbers over 70 men and from 35 countries.

Cambridge, Mar. 23.—That balmy, languid feeling of spring must be firmly instilled in the systems of the Harvard undergraduates at Cambridge. Either that or the hook worm, for the Harvard Crimson has come out with a sarcastic editorial severely scoring those care-free, happy undergraduates who "look on their college life as a pleasant interlude between the seclusion of their school days and the prosaic realities of the business world."

Boston, Mar. 23.—Eugene N. Foss, Democratic candidate to succeed the late Congressman Lovering in the 14th district, has been elected overwhelmingly, according to returns yesterday afternoon. His margin of victory is placed as high as 10,000. William R. Buchanan, his Republican opponent, was buried under an avalanche of votes. G. O. P. men knifed him mercilessly.

Newton, Mar. 23.—Mayor Charles E. Hatfield of Newton received a letter this morning from the Pacific Corresponding Club of Spokane, Wash., asking that the mayor send the names of all unmarried women in the city to the secretary of that club, the object being to find wives for all the unmarried members of the club.

Stamford, Ct., Mar. 23.—Albert Crane of Strawberry Hill has given \$35,000 for a 12-acre site for the New Stamford Hospital. The fact became known yesterday when the site on West Broad street was purchased.

Hanover, N. H., Mar. 23.—Manager Keeler today issued the schedule of the Dartmouth football team for next fall. It is one of the poorest ever arranged in point of home games, only four teams coming to Hanover, where six formerly was the number.

The schedule follows:
Oct. 1, Mass. Aggies at Hanover.
Oct. 8, Colby at Hanover.
Oct. 15, Vermont at Hanover.
Oct. 22, Williams at Williamstown.
Oct. 29, Princeton at Princeton.
Nov. 5, Amherst at Hanover.
Nov. 12, Harvard at Cambridge.

Boston, Mar. 23.—George W. Coleman, indicted by the federal grand jury in 63 counts of misapplication of the funds of the National City Bank of Cambridge, and Wilson W. Lockhart, in-

dicted on 49 counts for aiding Coleman, will be arraigned in the U. S. Circuit Court at 4 P. M. today.

WASHINGTON, D. C.

Washington, Mar. 22.—Speaker Cannon is not taking any leading or dominating part in the proceedings of the House, nor is he talking for publication about his attitude on the subject. From a source very near the Speaker it was learned yesterday that he felt that the majority which had taken control of things last Saturday was now responsible for legislative matters, and that it might be poor taste for him to make suggestion or to attempt to have anything to do with the directing of affairs.

FOREIGN.

Paris, Mar. 23.—Professor Elie Metchnikoff of the Pasteur Institute announced before the Academy of Sciences last night that he had succeeded in overcoming the principal obstacle to the preparation of an effective anti-typhoid vaccine. This disease heretofore has been incommunicable to the lower animals, and Professor Metchnikoff has now succeeded in inoculating monkeys with the typhoid germs. By this means he has been able to obtain exact symptoms, permitting accurate experiments on the action of his vaccines.

Following the announcement from Cornell University that "Co-eds" are brighter than male students is the revelation of even greater supremacy for the girls at the University of Illinois. Last week the Phi Beta Kappa, an honorary fraternity, made its list of pledges public and out of twenty-seven names, there were only seven men. This surpasses the Cornell record of nineteen out of thirty-one selected for the same honor.

COSMOPOLITAN CLUB

(Continued from page 1.)

countries. They hope to level the walls of race prejudice. The first Cosmopolitan Club was organized at the University of Wisconsin. There is an Association of Cosmopolitan Clubs, to which clubs at many of the colleges belong. The Technology club has not yet joined the association.

Dr. Maclaurin expressed pleasure at being among those present. He said there are representatives of forty foreign countries in the Institute. By making the rounds of the room one would make a world tour; he would come in touch with nearly all the foreign countries. The foundation of the Cosmopolitan Club is one of the most significant events that have taken place in the Institute in some time. The idea of bringing these men of all nationalities at about the same age together informally is a good one. In the Cosmopolitan Club at Cambridge University the different nationalities in the club take turns in entertaining in their own way the other members. Dr. Maclaurin complimented the club on the furnishings of the room, especially the human furnishings.

Mr. Drew, who has been in close relation with the Chinese for forty-five years complimented the non-Chinese members of the club on having among them so many of the "celestial Orientals."

After the speeches the meeting became very informal. The members gathered in groups to eat, drink and talk until they were weary, when they went home. Crackers and cheese, pretzels and ginger ale and a little bit more were served as refreshments.

Several members of the Harvard Cosmopolitan Club were present.

The glove store that carries a good line of
