BOSTON, MASS., MARCH 26, 1910.

The Tech takes pleasure in announcing the appointments of David James McGrath 1912 to the News Board, and of Christopher Fallon 1912 to the Business Board as Assistant Advertising Manager.

E. B. Moore 1912 has been granted a leave of absence from the position of General News Editor.

When in the course of human events spring approacheth and with it the accompanying events of Junior week, a just respect for the veracity of the statements of mankind maintains that each man state the causes which impel the declaration and then to back up the aforesaid declaration by proof.

Wherefore, The Tech offers this public challenge to the Board of Editors of Technique 1911 to allow the latter an opportunity to retrieve the crushing defeats suffered by previous Technique Boards at the hands of The Tech. The place, Tech Field; the modus operandi, the hickory stick and leather pill.

In order that there shall be every opportunity for the Technique baseball players to make the best of the event, The Tech refrains from making any further requirements for the exact date and other minor arrangements.

It is suggested, however, that the date be chosen that conflicts least with the other happenings of the week, and also that the umpire be one at least known to both parties.

GENERAL NEWS

TELEGRAPH NEWS OF THE MORNING.

WEATHER REPORT.

Philadelphia, March 25.—The disintegration of the general sympathetic strike called to aid the men of the Rapid Transit Company continued yesterday. Hundreds of mill hands employed in the textile industries returned to work and building operations which were tied up by the general walk-out were resumed in many parts of the city.

Wellesley, March 26.—The Wellesley tree day, the most elaborate fete of the college year, and the most difficult for the public to gain access to, may be open this year to about 1,200 guests, who have friends among the students. It is proposed by the Student Government Association to allow each student to purchase one ticket, at a price not exceeding \$2, for a guest, and the faculty has been petitioned to permit it. The proceeds are to go toward the proposed students' building.

Boston, March 25.—It is not a crime to refuse to pay a taxicab fare, the full bench of the supreme court yesterday decided in the case of the Commonwealth against James C. Goldman. The court rules that chapter 103, section 55, of the Revised Laws, which makes it a crime to refuse to pay for the use of a horse or carriage, does not apply to taxicabs.

LECTURE BY DR. WHITNEY

(Continued from page 1.)

General Electric Co. Where a product is desired free from carbon, tungsten is used to build the furnace.

Furnaces for the electric smelting of iron were discussed and illustrated with the lantern slides by Dr. Whitney. Although these furnaces are not applied to any large extent at present, Dr. Whitney predicted that their use would grow rapidly. It is a significant fact that in Northern California pig-iron is being produced in electric furnaces.

Yesterday's lecture was the last of the series of three given by Dr. W. R. Whitney. The Chemistry Department intends to have more of such lectures given by men like Mr. Whitaker and Dr. Whitney who are authorities in their special line of work.

Daytonia, Fla., March 25.—A 300-mile race for a trophy valued at \$5,000 was the feature scheduled for yesterday's automobile speed carnival on Daytona beach. The race is free for all and the contestants include Barney Oldfield, David Bruce Brown, George Robertson, Ben Kerscher, and other drivers with stock cars.

New Orleans, March 25.—In the opposing camp here it was declared that Gen. W. B. Gordon, one of the leaders in the insurgent army of Nicaragua, was in New Orleans for the purpose of raising forces and securing financial aid to carry on the warfare against Madriz. Gen. Gordon arrived in New Orleans a few days ago from Bluefields.

WASHINGTON, D. C.

Washington, March 26.—Six regular Republicans have been selected to represent the majority of the House on the new rules committee that was created by the Norris resolution, passed last week after one of the greatest fights ever waged in the lower branch of Congress. They were: Representatives Dalzell of Pennsylvania, Smith of Iowa, Boutell of Illinois, Lawrence of Massachusetts, Fassett of New York and Smith of California.

The insurgents have no representation on the committee, but they left the caucus satisfied with the result.

Washington, March 26.—The committee on legal affairs reported in the senate yesterday a bill providing that Oct. 12 in each year shall hereafter be a legal holiday and shall be known as "Columbus Day."

Berlin, March 26.—The ministry of war has offered prizes aggregating \$4500 for the best altitude and passenger carrying performances made by German subjects in German-built aeroplanes during aviation week at Johannisth next August.

St. Louis University would like to meet Syracuse on the gridiron next Thanksgiving Day in St. Louis. The Mound City boys ever would seek trouble.

Washington, March 19.—Assistant Secretary Beekman Winthrop of the navy department announced yesterday that 350 marines now in Nicaragua would be brought back to the United States on the Prairie. The marine strength in Nicaragua was 1459 men. How long the rest of the marines will remain is a question to be settled within a few days.

Talbot Pendleton, the crack sprinter, is out for the freshman baseball team at Princeton. This will be a big loss to the track team.
