OUR LAZY FRESHMEN
The Freshmen don't seem to realize that the dual meet with the Sopho-
more is to be held on April 9. They have defeated the Sopho-
more at the Indoor Meet. We have
mores at the Field you
by our victory over Lowell Textile that
that we have not become so conceited
what you can to show the Institute
get into action you track-men and do
comes in less than two weeks, and as
success in this line has been mainly
has defeated the Sophs in everything

BOSTON, MARCH 30, 1910.
WASHINGTON, D. C.
Washington, D. C. Mar. 30.—Two
bills regulating the use of wireless tele-
graphy were favorably reported to the
House yesterday. One, providing that
Government messages shall have prece-
dence over all others excepting distress
signals from vessels was reported from
the Committee on Merchant Marine and
Fisheries. The bill would provide a
form of Federal license for wireless sta-
tions. The Government would be
granted a practical monopoly of the
air for wireless users, excepting in case
of disaster.

WASHINGTON, D. C. Mar. 30.—Commis-
sioner of Patents Moore, yesterday
made a statement that he was
of the patents which are being
granted are practically worthless. He
stated that the United States is
behind other countries in this respect
both Great Britain and Germany hav-
ing far better patent systems than we
have.

FOREIGN
Catalonia, Mar. 29.—The eruptions from
Mt. Etna increased during the day,
and so day dawned with a heavy
smoke filling the air.

Cheeubeck, Mar. 29.—M. Paulhan, the
French aviator, who landed here
yesterday from the steamer President Grant
expressed very bitter sentiments with
reference to his trip to the United
States. He said that enthusiasm was
shown only in the cities where there
were large French colonies. The
Americans were unmoved despite his
speeches.

A number of students of electrical
engineering at Worcester Polytechnic
are to make a trip of inspection to sev-
eral railroad and power plants, going
as far as New York. They have ar-
anged to visit the N. Y. N. H. & H.
power plant at Cos Cob, Conn.; Edison
Company's power plants in New York;
and the Chicago Rapid Transit and
other plants.

FOWNES
GLOVES
are not cheapest, but they're least expensive.
