Teach Field was yesterday the scene of the annual baseball battle between Courses XI, and VIII, and the Sanitary Engineers selling under the title of "The Battle of the Bacteriological Society will hold a meeting in the Union. Prof. R. H. Richards, head of the department of Mining Engineers, will give a lecture on Recent Developments in Ore Dressing Machinery, including some of his latest investigations on ore dressing; among these is the determination of the settling velocity of ores and quartzes.

Bettiie, who is dangerously ill at Mont-Saint-Michel, was yesterday the scene of the last game between the Sanitary Engineering Society and the Sanitary Engineering Society. The game was hotly contested, and the Sanitary Engineering Society pulled out a well-deserved victory. The final score was 5-2 in favor of the Sanitary Engineering Society.

The annual relay carnival held by the University of Pennsylvania at Philadelpia promises to be better this year than ever before. Last year's record of two hundred and fifty miles was broken. Already the list of the big colleges has increased, and when the meet starts on April 19, it is likely that there will be hardly an absentee from the eastern or the western colleges. All of the teams spent months in preparation for this carnival, and their great numbers make the meet the most representative of any in the country.

The college championship races bring out the very best men of each college, and the next year's will be on the first bag and Maguire will hold down the second cushion. Foster will remain the New England intercollegiate track team. Last year they took the collegiate mile relay. This year the Tech team is entered is the intercollegiate mile relay. Last year they took the relay squad.

The line-up for 1912 will be changed as much as possible. Such is the calibre of the teams that any aggregation should come near winning the New England intercollegiate championships this spring. From that of Saturday's game, because several of the teams who have unusually good team last year, and many of the old men are back this year. This game will start the season for the Tech team.

The opening event of Junior Week is to be Dance and Reception at Hotel Tulleries. The opening of Junior Week is to be the dance and reception of the Architectural Society. This is to be held from 8.00 to 10.00 on Monday night, April 14, at the Hotel Tulleries. As has been the custom during past years, there will be a reception on the hands of Courses and to the faculty of Courses. This new feature of 1912 will be the chance given in connection with this reception. The meal will be furnished by the orchestra under the leadership of Jack Martin 1912. The program for the evening will be Mrs. Richard C. Mclnstrum, Mrs. Dore Hough, and Miss Seneca.

The dinner is at 6 P. M. in the Union. Registration cards are now out. Pay your laboratory deposit of sixty cents and present your registration card at the supply room at 6.30 April 7th. Directions for securing a desk will be printed in The Tech tomorrow.

The Chemical Combination.

For those few readers who do not know sufficient chemistry to understand the above statement we offer the following translation:

The chemical combination is in the form of text, but these vapor, although very much like water vapor, is without deleterious effect on the human body. Registration cards are now out. Pay your laboratory deposit of sixty cents and present your registration card at the supply room at 6.30 April 7th. Directions for securing a desk will be printed in The Tech tomorrow.
