

THE TECH

VOL. XXIX. NO. 139.

BOSTON, MASS., TUESDAY, APRIL 12, 1910

PRICE ONE CENT

JOURNALISTS DINNER AT UNION TONIGHT

Past, Present And Future Men On The Tech To Hear Editor Tracy

Informality will be the rule at this evening's dinner of The Tech. This, the second dinner of this year's paper, will be held in the Union proper dining-room at 6.30 P. M.

The main speaker of the evening will be Mr. Tracy, managing editor of the Boston Evening Transcript. He will speak on modern journalism. As he is connected with one of the large progressive papers, his talk will undoubtedly be of much value as well as of interest.

All men who have been connected with the paper, and any others who are interested are urged to come to the dinner. The Union will provide a low priced, simple yet satisfying dinner.

Among those who will be present and may give suggestions are Prof. Pearson and Mr. Cort of the English department, Mr. I. W. Litchfield, Mr. R. C. Tolman, editor in chief in 1902, and Mr. M. R. Scharff, once of The Tech, and now assistant to the President.

The dinner held last term at which Prof. Pearson, Mr. Litchfield, and Mr. Scharff were speakers was well attended by the members and readers of The Tech. The dinner was successful, in that the men became better acquainted with each other, and those higher up. The results were a decidedly better feeling and less loss of time.

The tickets for the dinner are for sale by members of the board and others. The price is thirty-five cents.

The time set is 6.30. It will be over for those who have to get away by about eight.

M. I. T. PRIZE DRILL

Annual Event To Occur On Wednesday, April 27

The annual Interscholastic Prize Drill of the M. I. T. Battalion will occur this year on Wednesday afternoon, April 27. The battalion will give a dress parade and company drill, and the high schools send in teams to compete for the individual honors. The prizes are to be a gold medal for the winner, a silver medal for the second man, and a shield for the winning team.

The committee in charge of the affair are working hard to make it a success. Adjutant John S. Selfridge is the chairman of the committee while the other members are non-commissioned officers of the cadets. The drill has always been a success with regard to the military part and generally financial.

Besides this drill, the battalion also has a prize drill of its own. This event will probably take place some time in the latter part of May. In this drill six men from each company compete in an individual prize drill with a gold and a silver medal as the reward. A competitive company drill is also held, and following this, the presentation of prizes, commissions, and warrants, at the battalion dress parade. Our own drill will probably occur on some Friday evening.

Tickets for the Interscholastic Prize Drill may be obtained from any of the committee.

LECTURE ON CANNING TO MECH. ENG. SOCIETY

R. A. D. Preston And A. P. Truette To Give Talks This Evening

This evening at eight o'clock the Mechanical Engineering Society will hold a regular meeting in Room 11 Engineering B. R. A. D. Preston 1910 and A. P. Truette 1910 will give a talk on the "Canning Industries," the lectures being fully illustrated by the stereopticon.

Mr. Preston has been employed for two summers at a large canning industry in New York State and will open the lecture with a general description of the important canning machinery used. Following this there will be a more detailed description of the canning of peas.

Mr. Truette, who has also been connected for some time with this kind of work, will give the second part of the talk, taking for his subject corn and beans. All branches of the work will be described, showing the different processes used from the time the corn is grown till it is canned and ready for shipment.

A DOUBLE SPECIAL

Thursday, a double special of The Tech will be issued. The outside eight pages will give a complete advance on Junior Week. A complete summary of the events made up in calendar form will be given. More detailed accounts will be given in special articles.

Pictures of the Tech Show principles and choruses will be displayed. The catchy parts will be cartooned.

Technique Rush will be artistically as well as journalistically chronicled.

The inside eight pages will be devoted to a consideration of Physics and Electro Chemistry, Courses VIII. and XIV. Although not among the courses taken by large numbers, these two are very important. Electric Chemistry is one of the coming sciences, as is evidenced by the recent wonderful development in electro-chemical industries. Physics is the foundation for all science and engineering. More and more are the seemingly purely theoretical considerations coming into practical use in industrial economy, and the fundamental physical propositions are as absolutely essential for the creative engineer as the pure scientist.

Watch for this, the best yet.

CLASS NUMERALS

The men who get their numerals as a result of Saturday's meet are the first six men who finished for the Sophs in the cross-country—E. E. Ferry, R. M. Ferry, K. Cartwright, H. S. Benson, R. E. Whipple, and V. V. Ballard, and all the men who won a first in the track meet:—C. E. Trull 1913, J. J. Strachan 1913, M. A. Oettinger 1912, H. G. Watkins 1912, J. S. Grant 1912, P. W. Dalrymple 1912, H. Greenleaf 1912, D. F. Benbow 1912, J. L. Bray 1912, and W. M. Ruby 1912.

LADIES WELCOME AT TECHNIQUE-RUSH LUNCH

Attendance Last Week Breaks All Previous Union Records This Year

Thursday will be a big day at the Union. At the special luncheon, which will be served at noon, the man who gets the first Technique out of the rush, the most mauled up man, and the man who has the most outlandish rush togs. will be guests of honor. Of course, these men will come to the dining room in the same costumes which they wore at the rush. Changing clothes isn't fair, but washing will probably be permitted. Some of the men have signified their intention to bring their folks to this luncheon, and the management wishes to announce that ladies will be welcome.

All records for attendance at the Union were broken last week. The number of men served was 2556, breaking the record of 2496, established in the first week of March. Dinners were served to the Tech Show, April 3, at the Union, and at Shubert's Theatre, April 10. The T. C. A. was served April 6, the Chemical Society April 7, and the Boston Section of Electrical Engineers April 9. Refreshments were served to the Mining Engineering Society April 15, and at Union Night, April 8. During the coming week dinners will be served to The Tech, T. C. A., N. E. Association of Natural History Societies, and the Class of 1905. The Union will serve dinner to the Tech Show at Northampton on Saturday, and also refreshments on the train after the performances.

Following is the report for the week:

DINING ROOM.

Receipts.

Inventory April 10	\$398.74
Dining Room	495.44
Private Dinners	155.20
Supplies sold	12.75
Gun	5.65
Discounts	1.34
	\$1,069.12

Expenses.

Inventory April 3	\$424.36
Supplies bought	419.37
Wages	140.80
Students' Wages	37.81
	\$1,022.34
Profit	\$46.78
Attendance	2,556

Cigars and Candies

Receipts.

Inventory April 10	\$56.43
Cash received	64.10
Discounts	.43
	\$120.96

Expenses.

Inventory April 3	\$62.73
Cash paid out	37.53
	\$100.26
Profit	\$20.70
House Committee Expenses	\$ 3.50
Net Profit, all departments	53.98
Nominal Profit to date	100.84
Equipment to date	431.04
Carpentry, etc., to March 1	309.60

Brussels, April 11.—Extensive preparations are going on for a big welcome to Theodore Roosevelt. The king may offer to the ex-President the decoration of the Order of Leopold.

FIVE FREE COPIES OF DE LUXE EDITION

Rush Will Be At 1:20 P. M. ---Last Chance To Sign Up Today

On Thursday at 1.20 the last gun for the rush will be fired and Technique 1911 will be officially on sale. There will be three warning shots, the first at 1.15, the second at 1.18 (and the third at fifteen seconds before 1.20. The first five books are free as usual and a new incentive for a good rush has been added as the board is going to have these books all of the de luxe edition. The president's signature will appear in the first twenty copies, all of which are numbered. The five free de luxes will be the only ones of that edition in the rush proper. The de luxes will be delivered that day, but not until the rush is all over, making two rushes instead of one as heretofore. The ordinary edition will be given out in the rush while the de luxe edition will be delivered in the archway between B and Pierce.

Fair play is assured to every one as the husky captain of the basket-ball team will be on duty to see that no one attempts to rob another fellow of his treasured number, should he receive one.

The last opportunity to sign up for a book is today and there are men at the Union every noon to sell slips and sign up anyone should they have not done so yet. The board positively states that no books will be sold. It is to be a subscription affair only and anyone who does not sign a slip will NOT get a book.

Porto Maurizio, April 11.—Gifford Pinchot, the former chief forester of the United States Department of Agriculture, spent the entire day today in a secret interview with Col. Roosevelt. Although the results of the interview have not been announced, it is expected that they will be soon.

Boston, April 12.—Secret and extensive tests under water with torpedoes will be made at the naval torpedo station at Newport during the coming summer by the submarine Octopus. The Montgomery, another submarine, will also continue her experimental work with torpedoes which she is now conducting in southern waters. The two submarines will probably work together and some good results are expected from these tests.

CALENDAR.

Tuesday, April 12.

5.00 P. M.—Executive Committee of Institute Committee, Room A, Union.

6.00 P. M.—The Tech Dinner, Union.

7.00 P. M.—Technique Electoral Committee, Union.

8.00 P. M.—Mech. Eng. Soc., 11 Eng. B.

Wednesday, April 13

1.00 P. M.—Tech Board Meeting, Tech Office.

2.00 P. M.—Baseball, 1912 vs. Everett at Everett.

4.15 P. M.—Institute Committee, Room A, Union.

6.00 P. M.—T. C. A. Dinner, Union.
