SULLIVAN ROCK DRILLS
and HAMMER DRILLS
for all classes of rock excavation.

SULLIVAN DIAMOND CORE DRILLS,
for Prospecting Mines
and Testing Rock Foundations
for dams and bridges.

SULLIVAN AIR COMPRESSORS
for supplying
Air Power for any conditions of service.

SULLIVAN COAL MINING MACHINES
Driven by air power or electricity.
Five types.

SULLIVAN STONE CHANNELERS,
for Quarrying building stone
for making wall cuts on canals,
wheel pits, etc.

Catalogues on these subjects will be supplied
upon request to our nearest branch office.
Our quarterly magazine, MINE AND QUARRY,
will be sent free to those who send us their names and
addresses and mention "The Tech."

SHIP CONSTRUCTION
(Continued from page 75.)

A survey of the student's work in fairing
and laying out the lifts.

Mould Loft.

An optional course in mould loft is
offered to students at the end of the
third year, covering the first ten days
of the summer vacation. For this pur-
pose the drawing room is cleared of
tables and a large floor space is avail-
bale.

Before the frames of a ship can be
bent it is necessary to have a drawing of
the complete body plan to full size,
which, of course, has to be made di-
rectly on the floor of the mould loft.
To get this body plan the lines have to
be carefully traced to full size on the
floor or to a scale of say one inch to
the foot on a glass or marble top table.
This is not good for this purpose as
the shrinkage of it may cause serious
errors. It formerly was the custom in
all ships yards to fair the lines full size
on the mould loft floor, but now many
of them both here and abroad prefer
the glass-topped table, and that is the
method used at the Institute. After
the fairing is thus done the full-sized
body plan can readily be constructed.

This work is strictly of a practical
nature and gives the student an ex-
ceptional opportunity to acquaint him-
self with one of the vital processes in
shipbuilding. It would take a man sev-
eral months in ordinary practice to
acquire the ability which he can here gain in ten
days.

You can pay the price of
FOWNES GLOVES
and not get Fownes style, fit nor service.
