TELEGRAPH NEWS OF THE MORNING.

WEATHER REPORT.

For Boston and Vicinity—Wednesday, fair; light variable winds.

Boston, May 4.—The tariff and the trusts are practically exonerated in the report of the Massachusetts state commission which has studied the causes of the present cost of high living.

These are the causes, say the probers for the present sky-rocket prices: Increase of the gold supply. Enormous waste of income on the part of nation, states and individuals. Increasing burden of disease, accident, crime and pauperism.

Desire of citizens for luxuries. Factors operating on side of supply to reduce volume and increase expenditures.

Paris, May 4.—The announcement was made yesterday that there had been constructed under the direction of the war department and with strict secrecy, a dirigible balloon of the semi-rigid type, capable of a speed of 80 kilometres (approximately 50 miles) an hour and that the machine would be ready for participation in the approaching summer army maneuvers.

The new military craft has been named The Frigate. It measures 3200 cubic metres and has twonacelles or ears, within which are contained motors designed to develop 240 horse-power.

Madrid, May 4.—Violent earthquake shocks were felt at 4.25 p. m. yesterday in the provinces of Olivenza and Badajoz, near the Portuguese frontier. No damage is reported.

Copenhagen, May 3.—The Roosevelts began a charming day in Denmark's capital and the adjacent country with an automobile drive to the Castle of Frederiksborg, which was built by Frederick II, in 1562, the main portion being replaced by the present structure in 1602 by Christian IV. In the castle church six Danish kings have been crowned. A visit to the National Museum was made the occasion of a friendly demonstration by the students from the government school. Mr. Roosevelt acknowledged the greeting in a brief speech. The motor drive was then continued to Helsingør.
