### NOTICES

#### ELEMENTS OF ELECTRICAL ENGINEERING 653—COURSE II.

The regular Friday lecture will be held this week instead of the recitations, as previously announced.

HARRISON W. SMITH.

#### LECTURES BY MR. BARNABY.

Lectures will be given by Mr. Sidney W. Barnaby at 4.00 P. M. in Room 11 Engineering Building B on the 10th, 12th, 16th, 18th and 20th, to students of the Department of Naval Architecture and Marine Engineering. Students of other Departments are also cordially invited to attend.

C. H. PEABODY.

#### COURSE ISSUES.

The Tech is considering having sets of the Course issues bound. The price will of course depend on the number. If those who would desire such a volume would signify such desire by leaving a note to that effect in one of The Tech boxes, matters would be greatly facilitated.

It is understood that this note would in no wise bind the writer, provided the price was considered too high.

The pages have been numbered consecutively in each issue so that they will go together very well in bound form; and so arranged, they would be a source of information on the various courses from a personal standpoint that is nowhere else to be found.

**SANITARIANS**—Remember the Business Meeting of the Biological Society today at 4 P. M. in Room 28, Pierce.

Alone and with only his personal bravery and pluck to bring him back alive, Sumner W. Cushing of Brockton, a Harvard graduate and scientist, is soon to make one of the most daring expeditions ever undertaken by man into the heart of eastern India, a country infested with diseases and thronging with cannibals and bloodthirsty wild men.
