The dinner to be given the Class of 1914 will be held at Hyde Park tomorrow. An easy trial of about eight miles running has been scheduled for the battalion parade. A list of these runs may prove of military value, but it will be the duty of the officers to see that they are not used for practice runs. The battalion inspection, which was held on the 7th, was attended by a large number of the faculty and prominent alumni who belong to the Institute and in good condition. The music was good. The band was in perfect order and company close drill suits, manual of arms and marching were good. The Institute has no suitable drill grounds or target range.

P. D. LOCHERIDGE, Captain,
General Staff Corps Inspector.

TECH MAN WINS PRIZE
Custer 1912, in Dayton Meet
Two trophies of the recent ballroom contests at Dayton, O., were awarded to Custer, 1912, of that city. The aviation day ceremonies offered prizes for the longest distance covered in three hours. The first of these prizes, together with a special prize, for the first airplane win, which increased the distance, was offered by the International Aeronautic Association, a city, and was awarded to Custer, 1912, of that city, who sailed from Dayton to Sharon, a distance of 42 miles, in the allotted time. He was accompanied on his flight by another Custer, 1912, of that city, who was assisted in the flight.

Custer is a member of the Junior Class and has always been interested in the sporting events of the Institute. He is a member of the track and field team. He has many good qualities, which he enjoys in the life of an Institute student. He is a member of the track and field team. He has always been the one who has always taken a deep interest in the sporting events of the Institute.
