Lost—Drawing Outfit.
Return to T. R. Krueger, 1914, care the Cage, Boston.

Found.
Gold ring.
Owner can have same by paying charges and applying at the Bursar's Office.

M. E. Dept. Notes.
During the summer the shaft of the McIntosh & Seymour tandem steam engine was replaced by a forged shaft made by the Boston Forge Company, as the old shaft had become sprung, due to the excessive load carried on the engine.

Four new jacks of larger capacity have replaced those formerly used on the 100,000 lb. beam testing machine.

A printing apparatus for making blue prints by electric light has been installed in Room 29 "h," and the carpenters are now putting a partition up to separate this from the drawing room proper. Washing tanks and a drying frame have been put in, so that the equipment is now very complete.

The Reversing Class requires a large number of articles for drawing, as shown above. We have them. So many pieces are very inconvenient to carry around, so we have designed an inexpensive case to hold them all. Do not fail to see one. Get one of our catalogs at Tech. Union, or at our office. Notice the low price as a Special Introductory Offer. You will be delighted.
