PROFESSOR CURRIE ON PORTUGUESE SITUATION

Effect of Revolution On U. S. Trade to be of No Importance

Professor Currier, head of the History and Political Science Department, suggests that the recent outbreak of the revolutions of Portugal may not be a general uprising of the whole people. The success of the new Republic of Portugal depends ultimately upon the character of the people and how they are affected by "freedom" of controlling their own affairs.

As is usually the case with uprisings, this terrible outbreak at Lisbon was the result of long smoldering causes. Chief among these was the King himself. Professor Currier says he was wholly unfitted to rule, a weakling and dissipated to an extreme degree. He was wholly unfitted to rule, a weakling and dissipated to an extreme degree. He was wholly unfitted to rule, a weakling and dissipated to an extreme degree.

With regard to the advisability of the United States recognizing the new Republic, Professor Currier compared the situation to that of the year 1879, the time of the establishment of the French Republic. In three days our economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time.

The President of the United States, the House of Representatives, and the Senate are now engaged in practice in gauging the flow of streams. The greatest success of the new Republic, Professor Currier compared with the success of the French Republic. In three days our economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time.

The success of the new Republic, Professor Currier compared with the success of the French Republic. In three days our economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time. The economic relations with Portugal does not compare even approximately with our relations at that time.

The year 1879 in France was a time of great excitement. The great excitement was due to the fact that the French had just taken over the management of the American postal service. The French had just taken over the management of the American postal service. The French had just taken over the management of the American postal service.

With the exception of the United States, the United States was not affected by the French Revolution. No other country was affected by the French Revolution. No other country was affected by the French Revolution. No other country was affected by the French Revolution.

NEW MUSICAL CLUB

Tech Club of Merrimack Valley Plans Aeronautical Reunion

The subject of aeronautics is not only a matter of history in the schools. An aeronauti cal reunion of the Technology Club of the Merrimack Valley is the latest enthusiasm of the students.

On Tuesday afternoon, October 18, the party will meet at the Western Country Club, Throgsneck, Mass., from 2 to 8 o'clock, to discuss the subject. The Tech Aerio Club will give a demonstration of anering, and the remain der of the afternoon will be devoted to golf and tennis.

Dinner will be served about 7:15. The program will include: Violins: C. M. Berry 1914, T. H. Brightman 1914, L. H. Harris 1913, R. E. Morse 1914, W. G. Macintosh 1914, and H. C. Danforth 1914. Voce: P. H. Hillard 1913.

The program of the Tech Aerio Club of the Merrimack Valley was as follows: Violins: C. M. Berry 1914, T. H. Brightman 1914, L. H. Harris 1913, R. E. Morse 1914, W. G. Macintosh 1914, and H. C. Danforth 1914. Vocal: P. H. Hillard 1913.

The Tech Aerio Club of the Merrimack Valley will give a demonstration of aeronautics on Tuesday afternoon, October 18, at 4 P.M. sharp. The program will include: Violins: C. M. Berry 1914, T. H. Brightman 1914, L. H. Harris 1913, R. E. Morse 1914, W. G. Macintosh 1914, and H. C. Danforth 1914. Vocal: P. H. Hillard 1913.
