A MEETING OF THE MECHANICAL ENGINEERING SOCIETY

The Mechanical Engineering Society held its first meeting and dinner of the year in the Union last night. About seventy men were present and enjoyed greatly the short talks given by Professor Lanza, Hayward, and Miller, which were given after the dinner.

After the meal had been disposed of, Chairman MacKenzine called the meeting to order. He stated that he desired to arouse enthusiasm among the members and lower classes that an extremely successful year was about to open for the society. The trips of many factories, which were features of last year's program, are to be continued. Professor Lanza, who was to make the opening address, had to leave the city for a few days, as he could not make more use of his student associates than he possibly could make of the American Society of Mechanical Engineers.

Professor Lanza was then introduced. He urged the men to make the most of the A. E. M. E. meetings. He said that he hoped that it would not be long before a Tech man had an article accepted by their official journal.

Professor Hayward urged the men to cultivate the social habit. He said, would be an exceptional aid to them in after life. Everyone should advertise himself, he said, and make friends and learn to know men. Prof. Walter C. Miller, which were given after the dinner, had to leave the city for a few days, as he could not make more use of his student associates than he possibly could make of the American Society of Mechanical Engineers.

The efficiency of Government organization is not limited to members of the electrical engineering course, but members of Courses VIII and XIV are also eligible. The meeting will be held at 7:30 on the Union and refreshments will be served.

MECHANICALS OPEN YEAR WITH DINNER

Proposed Trips to Niagara Falls Discussed at First Meeting of Year

The entries for the Fall tennis tournament closed and drawings were held yesterday. There are a number of good men entered, so the outcome of the tournament is by no means certain. Tennis ranking will undoubtedly be greatly altered as the result of the tournaments and the meetings. The results of the drawing as follows: 1. T. B. Parker 1913; 2. W. P. Covill 1912; 3. A. B. Barkley 1913; 4. C. P. Keer 1911; 5. G. M. Keith 1912; 6. J. B. Little 1913. The tennis ranking, it may be mentioned, is divided in five sections and each college team is represented in each section.

The ruling governing the tournament are similar to those of last spring. Each man or team is to finish a set of balls, the winning man or team to take the unused balls. The preliminaries round of singles must be played off by Saturday, and the results of all the matches must be sent in by 6 p.m. for P. W. Covill 1912. Results of doubles and the results of the electrician tournaments in the bulletin in the corner of the Rogers 4th floor.

The results of the drawings for the singles followed: W. N. Holmes 1913 against A. A. Booth 1914; R. Atwater 1913 against S. S. Rand 1913; R. Wodward 1912 against S. S. Rand 1913. The singles matches were played off by Saturday, and the results of all the matches must be sent in by 6 p.m. for P. W. Covill 1912. Results of doubles and the results of the electrician tournaments in the bulletin in the corner of the Rogers 4th floor.

GEORGE VANCE IS FACTORELY SETTLED

There are no large issues between England and this country, and the United States received satisfactory de-
