Fall rowing practice has been di-
rected chiefly to the development of
new men. Thirty have reapplied so
far, and it is expected that at least
forty will report this week. A notice
declaring the readiness of the body to
begin the season has been issued.
Second crews, which will come to-
to come out and get a try-out, since
the last crew has been unable to prac-
tice. Thirty have reported so far. Mr. L. S. Winchester, who took the
