THURSDAY, OCTOBER 20, 1910.

The term is already one-fifth over, and yet nothing has been heard of 1912 class elections. Nominations in senior class are now open, but the juniors apparently have not yet thought of organizing for the coming year. Is it not about time?

The Tech prints today the correction of a mistaken statement which appeared in one of its issues. It is very hard to get all the news and to be sure of entire accuracy. Inaccuracies are largely avoided and The Tech be materially aided in its work if the secretary of each organization will give an outline of meetings in the upper office of The Tech.

1911 ELECTIONS.

The election of 1911 officers for the coming year is to be held soon, and for this purpose nominations must be handed in by members of the class. The officers are president, vice-president, secretary, treasurer, clerk, two members of the Institute Committee, and two directors. All these together compose the Board of Directors of the class. There are also five members of the Athletic Association to be elected. Nominations must be signed by ten men, no man to sign the nomination of more than one man for the same office.

The elections of officers in the Junior class is very important as there remain the permanent officers of the class. This is especially true of the president and secretary. Nominations are now open and will remain so until Wednesday, October 26, at 4 P.M.

There will be no rowing for varsity or freshman crews at Yale on Saturdays during the fall. Training will be the main feature.

Gym classes at 8:30 A.M. is the announcement of the gymnasium department at Syracuse. They last until 10 A.M.

Steps are being taken by the faculty of Columbia to organize a student forum for the expression of undergraduate sentiment.

M. E. SOCIETY.

This evening the Mining Engineer Society held its first meeting of the year at 7:30, in the small dining room of the Union. Professor Richards, the head of the Mining Department, has consented to speak on Mexico. His address will be illustrated by lantern slides prepared from photographs taken by him during his travels in that country. This talk should prove most interesting, describing as it does a country which claims so many Course III men after graduation.

A cordial invitation is extended to all Course III men to come to this meeting. Sophomores are particularly invited to be present, and it offers an opportunity for freshmen intending to take the mining course to meet the professors and upper classmen.

ESPERANTISTS TO HOLD MEETING.

The New England Esperanto Association is to hold its annual meeting in Boston this Saturday. Members will leave Pierce Building, New square, at 8:30 P.M., to take an "Esperanto walk" in the suburbs. At 9:40 P.M., Mr. Wellman is to address the gathering in the proper language. Then, "Like It," rendered in Esperanto, and will follow selections from "As You Like It," rendered in Esperanto, and a half-hour first lesson in Esperanto, to be given the audience.

CROSS-COUNTRY.

Arrangements Completed for Harvard Event.

Arrangements have just been completed for the annual race between the Harvard and Technology cross-country teams. The race will be run over the Harvard course on Saturday, October 29. This course is five miles long and finishes on Dunster Road, Chestnut Hill. Last year the race was run on Field Day over the Technology course, and was won by Technology with the score of 27 to 62. Trials for the men will probably come some time next week. Each team will enter ten men and score six of them.
