I

On the subject of England.

We crossed the Atlantic on a cattle boat and spent the summer in the British Isles. Many men were voted into the society and the meeting of the society last week, fifty new members in Technique 1912, should take notice of the names of members who are furnished for the page in Technique, November 7, 1910.

Notes in regard to status with reference to graduation have been sent to Fourth Year students. Any student who has not received a note should consult me if he expects to be a candidate for graduation in June, 1911.

The Gymnasium classes in Physical Training begin this week, according to the Tabular View. The attendances at the first two classes was very poor, and a large number of men have one absence against them already. There are only four cuts allowed during the year, and each man must report at his class in order to obtain a clear record in that subject.

A COLLEGE DANCE will be given November 21, at Temple Israel, Tenth Street and Pennsylvania. Invitations will be sent to members who have not attended during the year, and each man must return to Cage for L. R. Waud's address.

WINCHESTER

Repeating Shotguns

Used in the U. S. Army.

The U. S. Army authorities know a gun; that is why, when they decided to equip some troops with repeating shotguns, they selected the Winchester in preference to all other makes. The experts of the U. S. government also know a gun; that’s why, after submitting a Winchester Repeating Shotgun to all sorts of tests, they pronounced it satisfactory. If you want a shotgun—buy the one whose strength and reliability had led the U. S. authorities to select it and the U. S. Ordinance Board to endorse—it’s the Winchester.
