Massachusetts Institute of Technology

November 7, 1916.

Attention is called to the following rule of the Faculty:

"All marks of D, except in Physical Laboratory, incurred during the first term must be removed not later than the end of the following March; those incurred in the second term must be removed not later than the end of the following November; except that the removal of time may be granted by the Faculty in the case of subjects which from the character of the work can be pursued to better advantage in the term for which the record is given. All deficiencies in Physical Laboratory work must be removed at a date to be determined by the instructor; students shall not be later than the end of the following November. In case a mark of D is not removed at the date thus determined, the student shall be required to discontinue any dependent subjects which he is taking, and shall obtain a clear record only by repeating the subject in which the mark was given. Petitions for extension of time must be presented before December 1."
