NEW OFFICERS
A. E. Baker, Secretary-Treasurer of the Committee, opened the meeting. In place of Dr. R. B. Stevens, who did not arrive till later, the report of the Ethics Committee was read and accepted after correction. After the report of the Ethics Committee, the President asked for the nomination of officers for the next meeting, and the President moved that one ballot be cast for the following: President, R. B. Stevens; Vice-President, E. M. D. Waitt; Secretary, J. C. Fuller. The motion was unanimously passed, and the new President, R. B. Stevens, took the chair. President Stevens then proceeded to appoint members to the various committees, as follows: Point System Committee, J. C. Fuller, J. L. Barry, H. E. H. Sargent, E. W. Deringer, E. W. Tuckett; Calendar Committee, E. W. Tuckett, J. C. Fuller, J. L. Barry, C. F. Couch, H. E. H. Sargent.

SUB-COMMITTEES APPOINTED.

The President next called for nominations of officers for the various societies, and the following men were nominated: H. B. Ransom, J. C. Fuller, H. C. Dents, H. E. H. Sargent, H. E. H. Sargent, B. R. Scharff, H. Albers, J. Morey, G. S. Stevens; Vice-President, E. Montague; Treasurer, E. D. Waitt; Calendar Committee, E. W. Tuckett, J. C. Fuller, J. L. Barry, C. F. Couch, H. E. H. Sargent.

J. C. Fuller asked that the minutes of the previous meeting be passed. The motion was carried.

EARTHQUAKE ENGINEERING.

Interesting Talk to Be Given By Professors Jaggar and Jackson.

That the joint dinner of the professional societies of the Institute at the Union on November 22nd will be of great benefit to all who are present. The dinner will be held at 7:30 o'clock on that evening, and the price of admission will be $1.50, which includes a drink and an hour of social entertainment. The speakers for the evening will be 1. Prof. Jaggar and 2. Prof. Jackson, both of the Massachusetts Institute of Technology. The dinner will be served in the Grand Hall of the Union, and the table decorations will be arranged by the Women's Auxiliary of the Institute. The entertainment will consist of a short address by the President, followed by a musical program.

ELECTRIFICATION OF BOSTON RAILROADS.

Plans Are Entirely Practical and Time Not Far Distant When Change Will Be Made.

(Special by Technology Press Association.)

"Purely sentimental reasons may hold up the electrification of the New York, New Haven & Hartford, Boston & Rutland, and Boston & Albany Railroads for some little time, but the opinion of Prof. Dugard C. Jackson, and his Committee on the Electrification Engineering Department at the Massachusetts Institute of Technology, and President of the American Institute of Electrical Engineers, is that the plans are excellently practicable, and that the time is not far distant when change will be made."
