For this first meeting the committee was well attended. The entertainment was held yesterday afternoon, a great deal of business was disposed of. The engravings of the Technique 1912, were awarded, and the printing specifications were sent out for patents. To the art staff were elected three assistant art editors. The proofs of the class picture were on hand at the meeting and were pronounced as a good one. This proof will be posted in the Technology Union, and the individuals in the picture are asked in their names opposite their respective numbers. Ads are coming in first rate and the affairs of the Board are progressing smoothly to warrant an optimistic outlook.

SOUTHERN CLUB DINNER
THURSDAY EVENING

Arrangements Will Be Announced for Ensuing Year—Enrollment Large.

Next Thursday evening the Southern Club of the Institute will open the year by holding an informal dinner at the Technology Club. A fine time is promised, the usual Southern cordiality will be in evidence, and a large number are expected to attend. There are fully 25 members in the Southern club this year, and all seem to point to a very successful season with a flourishing membership.

A number of social affairs have been planned for the year, but an definite dates have been set. A short time before Christmas an entertain ment for the members and their lady friends will be held at the Technology Club. At the beginning of the second term the club will hold a dance, and later in the year there will be other entertainments and several more dinner parties. Applications for membership should be sent to G. S. Watson as soon as possible.

Dr. Edwin B. A. Seligman, professor of economics at Columbia, was given a dinner the other day at the Hotel Astor as a token of appreciation of his twenty-five years of service. The committee in charge was headed by President Butler and Col. Roosevelt.
