PRACTICAL SANITATION
TRIED AT UNION

Union House Committee Has Made Many Improvements in

The Union Committee this year is composed of the Dean, as chairman, the President's assistant, Mr. Schaefer, and five undergraduate members, one of whom is chairman temporarily of the Dining Room, the House and the Entertainment Committees.

These members are: T. H. Chase, chairman of the Dining Room Commit- mittee; H. E. Parks, chairman of the House Committee; N. M. Stoge, chairman of the Entertain- ment Committee; A. C. Metz, secretary of the After the Union Committee meeting yesterday, it was announced that Lewin and J. S. Grant had resigned from the Dining Room Committee. It was also stated that there would be more entertainments this month.

The date for this meet has not been

The first event on the indoor schedule. For the Freshman meet, which is the regular at the Gym in preparation

A copy of the 1910 Senior Portfolio has been put into the Technique book-
case, the key of which may be ob-tained at the Cage.

The trophy cups have been pol-ished, and two of them, the Distin- guished Freshman cups, have been sent to New York for necessary en-gaving. If the music already placed on the piano proves to be popular more will be added from time to time. While there are a few men who still keep their hats on in the living rooms of the Union, the majority of the stu-dents respect the Union enough to take their hats off. It is hoped the remaining few will soon be shamed into according to the written re-quest. In general, these members wish the Union officially, and it hopes that the advent of this new toto will not cause it to be other-wise. Members have been provided for the used towels. The Union committee desires that more care be taken of the magazines, as it finds too many of them show marks of rough handling. The Union is continuing to be much more and more as a student club, with the result that better serves its purposes---that of a social meeting place for all students.
