The trip was made under the guidance of Mr. Gilbert of the water analysis laboratory, and it was of particular interest to those men who went along. All the guides were most courteous and showed a genuine interest in Technology and her students.

The following day, Wednesday, the society will make a trip to the Simplex factory, and they expect to be furnished with a guide by Mr. Morse. The following of a lecture by a trip to the factory to see the workings described will surely be a very instructing innovation, and should create an extra amount of interest in the meeting. The members are signing for the trip very well and it is expected that a large number will go.

This idea of having a lecture and following it by a trip to the actual place of application of the principles given in the lecture is an excellent one, and the plan should prove valuable, and might well be continued by the various societies. In particular should this be so in the Electrical Society, and for this meeting a good number should turn out.

After the lecture the members will be taken round Arrow Notch and Red Men Collars kept by a college man

Hotel Cumberland
Broadway at 44th Street, New York. Near 50th St. Subway Station and 33rd Street Elevated kept by a college man
