
Cosmopolitans to Meet New Year's Eve

Dinner Will Be Held at Tech Club On Newbury Street—Club Notes.

On New Year's Eve the Cosmopolitan Club will hold a dinner at the Technology Club in honor of the advent of the new twelve-month. Many good speakers have been secured, and the occasion bids fair to be a most enjoyable one. It is more than possible that at this time some information will be forthcoming about the new home for the club which will be somewhere on Newbury street. All the furniture has been moved from the old rooms at 460 Boylston street, and has been deposited in the Union. As soon as the house is secured the band of the Battalion is now fully organized and promises results later on.

The brain is a complex organism with many marvelous attributes.

Memory is one of them—hence do not forget Fatimas.

Thought is another—think of their goodness, their distinctive individuality.

Intelligence—the master thought is what we use in blending such rare tobaccos.

And Reason, well, they appeal to you because you cannot "reason" any other cigarette so satisfying and enjoyable. College men say they're "different"—and they know.
