DARTMOUTH DEFEATED IN VERY CLOSE GAME

Technology Wins By Superior Team Play and Shooting.

SCORE: DARTMOUTH 1, TECH 3.

Gould and Huriburt Stars for Tech; Norris and Wells for Dartmouth.

Before a large audience the Dart¬
mouth and Tech hockey teams played a doubleheader last night. The game was very slow in the first half, some shots being missed most by the Tech men, but were blocked by the Tech, the Dartmouth goal tender especially made many clever stops. The ice was in very poor condition on account of the thick mist caused by the am¬

The Dartmouth team was on the defensive during the first half, the score at the end of that period standing 0 to 0. Gould and Huriburt played a star game for Tech during the first half. Gould placed a shot that was returned by the goalie on the Tech. The Tech team played their best game this year, breaking up the green's plays, and made the puck down the ice with great style. Both teams made good interference, and the Tech team played their best game this year, but it had to be in the first half. Stuckler and Voss were each taken out for two minutes for various violations and at the end of the game the score stood at 0 to 0. The second half started very slowly.

Dartmouth took the lead for two min¬
utes, and then he returned to the puck and the score stood at 1 to 0. Gould made another goal after a few minutes, but the score stood at 1 to 0. Gould made another goal after a few minutes. Stuckler took the puck down the ice and made a try for a goal, but Baker was not able to get into the goal. There were no other goals scored in the second half and the final score was Dartmouth 1, Technology 3.

WIRELESS SENDING STATION FOR TECH

Efforts Are Being Made to Secure the Necessary Permission.

New Men Have Joined Society and Plans Are Being Pushed.

Every effort is being made by the leaders in the Wireless Society to make it possible for Tech to have a wireless sending station in the near future. At first, when the matter was suggested, there were various objections offered, among them being the one that a station at Tech might cause interference with the government stations in and near Boston, but this objection has now been satisfactorily overcome and there is every prospect that a station will have such a station at a very short time.

A large number of new men have joined the society this year, and among some of these there has been a feeling that the matter of securing a sending station was not being pushed sufficiently. This, however, has been the case, and the committee in charge has been hurrying matters as much as was possible. A meeting of the society will be held some afternoon of next week, and all committee members will be expected to be present. Matters of importance for the coming term will be brought up and a report of the committee which has been working on the plan for a transmitting station will be read.

The opening of the New Year should and will mark the beginning of a more active work among the society members.

For the use of the members a key

Glee Club to go to Providence Wednesday Night

New Schedule of Rehearsals For Musical Clubs Announced.

At 4 o'clock P.M., on Wednesday night, the Glee Club, Vocal Quartette and Banister of the Institute will give an entertainment in the Church of Providence, before the Kappa Alpha Theta Sisterity of St. John's University. The affair is a private one and will be followed by a full attendance of the Glee Club in the Science Gym before leaving is scheduled. The train leaves the Back Bay Station at 5:30 P.M.

An important rehearsal is to be held on Tuesday at the Union. The announcement is made that for the remainder of the term the Glee Club rehearsal on Tuesday afternoons at 4:15, and the Mandolin Club will hold rehearsals on Thursdays.

Philip Kehraman Swotz, of the class of 1912, died on January 1st, in Rutland, Mass. He was a member of the college football team that went to the East and had a contracted consumption while at the Institute and was forced to leave school last June.
