

**NEW HEAD OF TECH ALUMNI ELECTED**

Professor A. A. Noyes is New President of Alumni Association.

**OTHER OFFICERS CHOSEN.**

F. K. Copeland, 1876, is Vice-President, and Walter Humphreys, 1887, is Secretary.

According to the announcement made yesterday of the results of the balloting for all officers of the Tech Alumni Association for the coming year, the President-elect of that body is Dr. Arthur Ames Noyes, 1884, professor of physical chemistry and Director of the Research Laboratory of the Massachusetts Institute of Technology. This position is considered the greatest honor that can be conferred upon a Tech graduate by his fellow Alumni.

**FIERCE FIGHT IN CITY OF LONDON**

Several Anarchists Hold Hund Redec of Policemen and Troops at Bay.

**Winston Churchill Active.**

"Dutch Fist" and "Peter the Painter" reported Anarchists, who went to death shouting defiance to the laws of England. Defective Sergeant Leesom was seen with a squad of policemen to capture the Anarchists, who had killed three officers on the night of December 16. While reconnoitering in the back yard, the report of a revolver broke the silence and the detective fell back into a line of his assistants with a bullet in his lungs. The police rushed for aid and in due course a squad of officers, supported by two companies of Scots Guards from the Tower of London, arrived on the scene. Later on a battery of horse artillery, with three machine guns, a shooting gun and a fire brigade, came to the front. A rain of lead was poured into the windows of the house. The occupants responded, and from the quantity of bullets it was seen they had stocked up with plenty of ammunition in expectation of just such an encounter. Sooner or later they were posted on the roofs of the nearby buildings and fired continually at the faces appearing now and then at the windows. Pilots of straw were lighted near the houses, the idea of confusing the defenders out, but the flames communicated with the building and the Anarchists were driven to the street, which finally collapsed, carrying them to their death.

**Use of Reinforced Concrete in Bridges.**

Mr. W. M. Demnan of the National Bridge Co. to Address C. E. Society.

Mr. W. M. Demnan will speak to the Civil Engineering Society on Tuesday, January 9, at 4.15, in Room 8, Lowell Building, on "Reinforced Concrete in Bridges." Mr. Demnan is a civil engineer of a great deal of experience in the West, Mexico and Central America. For the past few years he has represented the National Pipe Company in New England, and has been connected with a large contracting firm. Mr. Demnan has a considerable number of slides showing reinforcing and concrete bridges in all stages of construction which will be used to illustrate the lecture. This will be an excellent opportunity for all interested to add to their knowledge of the type of construction which has sprung into prominence during the past few years.

**Union to be Open During Vacation**

Dining Room, However, Will Be Closed January 26th and 27th.

**Dr. Archibald Speaks Friday**

New Banner Over Union—Possibility of More Daily Papers.

The Union Committee has decided that the dining room shall be closed on Thursday and Friday, January 26 and 27, the two days immediately following the last of the mid-year examinations. The dining room will be reopened on Saturday, the 28th. The union rooms, however, are to remain open throughout the entire vacation.

To improve the appearance of the outside of the Union a new flag will be purchased, similar to the one now up, which has assumed a rather dirty hue. The Union Committee feel that the papers are much needed and popular among the students they will be continued. It has also been suggested that daily newspapers be put on sale at the Cage, although no definite action has been taken.

Next Friday evening the speaker will be the Rev. Dr. Archibald, although his subject has not yet been given out. More will be published on this and future entertainments as soon as possible.

**Military Science News.**

Many questions have come up concerning the mid-year examination in Military Science. It is hoped that the following year it will take this examination. This includes the members of the band. The band's standards for the term's work in the coming year will be determined by the results of the examination, the attendance and the manner of execution in the drill room.

The preliminary rifle practice has been satisfactory, and this future practice has been suspended until later.

**Calendar.**

Wednesday, January 4, 4.00—Basketball Practice—Gym. 4.15—Gym Team Practice—Gym. 8.00—1914 Basketball Practice—Gym. 5.30—Hockey Practice—Stadium. 5.30—Glee Club Practice—Amenity. 7.00—Alumni Dinner—Symphony Hall.
