BIG INDOOR MEET--THIS EVENING

Close Finishes Are Expected in Majority of Running Events.

SOURCES ARE A FAVORITs.

With a Number of Individual Stars, 1911 Appears an Easy First.

A close meet, with hair-splitting finishes, is the expected program for the annual interscholastic Meet at the Gym tonight. Most of the stars of last year's track team will compete, and there are also some freshmen of excellent ability who expect to make the older men hunt. Last year's indoor meet went to 1911, with 1912 and 1913 finishing third and fourth respectively. This year the meet is again contested to the birds. The hopper allows them six first places out of the eight that will be run, and he hopes to run a close race for second place, with the President finishing first.

The 20-yard dash has a large number of entries and will be closely contested. Capt. W. C. Salisbury, 1911, will probably take first place, with Guething, 1914, coming in second.

These men will be closely pushed by R. C. Thompson, 1913, and B. M. Munro, 1912, who are the star hurdlers of last year. The 200-yard hurdles will go to W. J. Feul, 11, who was the track star last year. Feul is second to no man in the hurdles. M. Ferry, 1912, is conceded second place, but will be pushed close by T. H. Guething, 1914, the Freshman hurdler of last year's track team. J. Copeland, 1876, is president, and M. J. Reilly, 1914, secretary of the Chevy Chase Athletic Association of M. I. T. on Saturday, January 7. This association is in a flourishing condition and has gathered information that assures them of a good meet. It is entirely a local affair. The members of Theoretical Chemistry will address the students residing outside the State of Michigan.

An Interchange of Cheers and Toasts.

The conclusion of the meeting is to be furnished by a school with such a cosmopolitan membership that such an extension of the Sherman law to foreign companies is impracticable. The American industry is largely a monopoly industry and the American anti-trust law cannot be applied to it. The American anti-trust law was not enacted for the purpose of testing the competition of other carriers entering upon the same lines of trade, but for the purpose of testing the competition of other carriers entering upon the same lines of trade. The American anti-trust law does not apply to the competition of other carriers entering upon the same lines of trade. The American anti-trust law does not apply to the competition of other carriers entering upon the same lines of trade.

HOCKEY TEAM STARTS WESTERN TRIP TODAY

Games With Loung Country Club and Rensselaer Poly-technic at Albany.

NEW DEFENSE ADOPTED.

Bewell Unable to Accompany Team--Nine Men Taken On Trip.

The Institute Hockey Team leaves this noon from the Trinity Station for their third trip abroad. Tonight they will play the strong Loung Country Club team on the Albany rink, and tomorrow afternoon the Rensselaer Poly-technic team on the same rink. The Loung Club always turns out a fast team, and this year's aggregation is no exception. The team is composed of old college stars, who have made a fine record this season, and who undoubtedly give the Loung Club a hard time. Coach Gould, however, is confident of pulling out a victory.

The team level is represented by a speedy seven this season, and has a decided advantage over the Loung Club in the forward line. Most of the Loung Club forwards are not capable of competing with the Institute forwards.

The defense proposition is one that the team, and especially the captain, have been working at. The Loung Club forwards are good skaters, but the Institute defense is much better.
