PORTFOLIO SLIPS TO BE DISTRIBUTED SOON

Men Urged to Have Pictures Taken as Soon as Possible.

The 1911 Portfolio Committee has decided on the Neuman Photo Company to do the photographing for the book. All Seniors and men who have been in the class of 1911 for two years or more are eligible to have their faces appear in the Senior record.

Slips will be distributed by the committee to members in order that the signatures may be made without any trouble or loss of time. The committee will greatly appreciate it if the men will get their pictures taken during the mid-year vacation, as it will greatly facilitate its work. If the fellows go down now they will find it much easier to make appointments and will not be bothered by the matter any more.

Slips will be distributed in the courses by the following men:
- I, VII, and XI-Merrill
- II-Wilkes
- III-McAllen
- IV-Hayman
- V and X-Cooley
- VI-Anderson
- VIII, XIII-H. C. Davis, Jr.

Just kill those exams and watch the basketball team do it Brown Saturday night. That two hours you can easily afford to give, for you know that you may never have another chance.

CO-OPERATION NEEDED FOR SANITARY REFORMS

So Declares Mr. Geo. C. Whipple, 1889, Before Institute of Chemical Engineers.

In a speech on "The Principles of Sewage Disposal," before the Institute of Chemical Engineers, Mr. George C. Whipple, 1889, said: "What appears to be needed in this country at this time is some method of co-operation by which needed sanitary reforms can be brought about at least expense. It is unsuitable to compel the purification of the sewage of a large stream city in order to protect the water supply of a small city lower down, provided pure water can be furnished to the latter in some better and cheaper way. Legislation that confines the State authorities with power to prevent the pollution of sewage but does not give them power to compel the purification of water or to control pollution by trade wastes is unsatisfactory. It naturally leads to litigation rather than to co-operation and may retarded rather than hasten necessary sanitary reforms."

(Continued from Page 1.)

CO-OPERATION NEEDED FOR SANITARY REFORMS

The pension bill, which grants pensions ranging from $12.00 to $36.00 a month to all soldiers who served thirty days in the U. S. army in the Civil War, or sixty days in the Mexican War, and who have reached the age of sixty-two years. The bill adds about $46,000,000 to the pension roll a year.
