BURLINGTON

The Institutes model observation station, in the Middlesex Fells has been rudely vandalized. One of the windows has been completely torn out and the building entered, evidently with malicious intent if one may judge by the wreckage strewn about over the floor. How great the loss may be, we have not been able to ascertain at the present time. It is known, however, that a valuable transit, instrument, several chronometers, level adjusters and other delicate astronomical instruments are used in the building. The very case of Civil Engineering course in Astronomy and Geodesy. The building is a substantial stone structure, nearly cylindrical in form with a hip roof. The roof has the usual opening, for the objectives of the transit. It is interesting to note that the door was found intact and securely bolted.

There is no hole, however small, Through which a villain cannot crawl.

GERMAN III. a and GERMAN COLLOQUIUM

Students desiring to take either of the above courses are requested to meet on Tuesday January 31, at 9 A. M. in room 24 Lowell for the arrangement of hours.

It is important that all planning to take either course be present at that time.

Frank Vogel.
