What may very well be called the leading social event of the college year, the Junior Prom, is to take place this year at the Hotel Somerset, on the evening of April twenty-first.

It is essential that the committee in charge of the details of the Prom know as far in advance as possible of how many of the students who will attend. It will then be able to make preparations accordingly, and avoid the last minute rush which has so often marred the success of previous proms. The Junior Prom Committee, therefore requests all members of our membership to sign up as soon as possible.

The details of the evening will be of rather a different character and more in line with the interest of the young men who will attend. It will then be able to look forward to a more comprehensive as well as more agreeable evening.

COMMERCIAL MEN WILL SUPPORT INSTITUTE

Promise of the support of the Boston Chamber of Commerce for certain special projects necessary to the growth and development of Tech has been made by President Smith of the Chamber. President Maclaurin wrote to Mr. Smith relative to finding some means of interest the Chamber in not only the Institute's general work but also some of the special projects now facing us. He states that there are several Alto companies available for the Institute and that it should rely upon them for the best of the present means of providing for its needs. As burn should be done with as much energy and efficiency as the highest of such standards are imbued with.

Mr. Smith replied as follows:

"I have no hesitation in saying that I believe there is a willing mind inside or outside of our membership who does not recognize the importance of the college and in the industrial world who are now to be equipped with the special methods which the Massachusetts Institute of Technology and the business world, training it as it does, equip with greater efficiency and power in the industrial world, equip them as it does now, and ought to do in the future, to equip businessmen men with expert and practical advice.

I am sure that the members of the Boston Chamber of Commerce welcome your appeal for their support, and that they will bend their energies to co-operating with the Institute."
