FRIDAY MARCH 3, 1911

Several times this past week there has occurred in the Union what must grate to heart and rile the blood of every true Tech man. There is probably no song held dearer by the son of Tech than the song at the singing of which we stand: the Stein Song in the Union be denied any man heard to parody or misquote.

The two cantatas rendered were Hofmann’s “Song of the Norns” and Strong’s “The Fishermaidens”. The Club was pleased by several Boston soloists, and sang the numbers exceedingly well.

INLAND WATERWAYS FOR MASSACHUSETTS

Committee to be Appointed to Study Problem of Development

Following Gov. Foss’ inaugural recommendation, the Massachusetts legislature voted Wednesday to create a committee to investigate the matter of inland waterways in this state, and report thereon by May first. The committee, consisting of seven persons to serve without pay, shall consider how the State may best cooperate with the federal government to further the development of water transportation within the State, by the building of waterways upon which no tolls or charges shall be made upon passing traffic, and to follow up the results of the present surveys conducted by the War Department of the Government for the deep intercoastal waterway from Boston to Texas. Further, the committee shall consider the advantages of co-operating with the State of Rhode Island in the construction of a canal for the cheaper handling of the raw manufacturing products of the great manufacturing industries of the two states.

FOWNES GLOVES

are not cheapest, but they’re less expensive.

Richards Studio of Dancing, 30 Huntington Avenue, Suite 426-427, Tel. B. B. 4175-M (Tech Ref.) Ball-Room & Classical by appointment only. Special Rates to Students.
