E. K. SOCIETY TO HOLD FETE

"RAILROAD NIGHT" WEDNESDAY, MARCH 15.

Mr. W. S. Murray, Chief Engineer of the New York New Haven and Hartford Railroad, and Mr. Paul Windsor, of the Boston Elevated, To Speak

What promises to be one of the best dinners ever conducted by a professional society in the Institute is to be held under the auspices of the electrical engineering society in the Union, on Wednesday evening, March 15. The event will be known as "Railroad night" and will be open only to members of the electrical engineering society.

The program committee has been fortunate in securing as speakers for the evening Mr. W. S. Murray, chief engineer of the New York New Haven and Hartford railroad, and Mr. Paul Windsor, of the Boston Elevated railroad. These two guests of the society will present, respectively, talks upon electric railroad and street railroad.

Mr. Murray is one of the foremost electrical engineers of the country, having been recently connected with the gigantic problem of the electrification of the House of Records in the Berkshires. He was at the special recommendation of professor Jackson of the electrical department, and will inform the members of the electrical engineering society of the work he has accomplished in the Berkshires.

Mr. Windsor is also considered an authority on railroad engineering, his particular branch being street railroad. He has been connected with the elevated railroad for a number of years, and is an excellent position to discuss the traffic system in this city.

Tickets should be secured as soon as possible by members of the society from any of the following men: Galliard, Denison, Fryer, Kemp or Flansburg, the admission price being "four bits." Remember this "railroad night" will occur on the 15th of this month at 6:30 in the Union and that it will be open only to regular or associate members of the electrical engineering society, and the faculty. Nuf ced, Electricals!

HOCKEY STORY CONTINUED

Continued from Page One

Our team pulled up the score from three to one in the first half, to a final score of 6-2.

For the fifth consecutive year, we defeated Dartmouth. The weathers of the season defeated Princeton this year, but fell at the hands of Tech, by a score of three to one.

Then followed the two games against the Leach Field Club, these games upon the small local rink developed into nothing short of slug matches. In the absence of our regular goalie, the first game resulted in our defeat with a score of eight to five. The second match we won by a score of five to three.

The seventh game of the season was won by the Mass. Agricultural College, the team which defeated Yale and Amherst this year. The Aggies have easily one of the best teams in the East this season. We, however, defeated Dartmouth and Tech being the only college teams which have been able to score against them. In an extra five minutes half, the game was decided four to three in our favor. This was the game in which Al Ranney won fame as goalie tender.

In the next game, Tech swamped Williams by the score of twelve to three. In spite of their poor showing against Tech, the Williams team defeated West Point this year. This walk-over game against West Point showed that Williams brought out the stars of center forwards, Sloan and Hurlbut. The team work of this pair bodes well for the success of next year.

The last game brought out the best playing of the season. The Halifax Crescents were picked from the Wanderers and the Crescents of Canada, the hockey champions of Nova Scotia. They brought a strong aggregation of men and players that are best in the game. The score resulted six to four in our favor.

The season proved our strength in spite of a very difficult schedule. Our games were with the very strongest teams of the East and yet we broke even in the number of games lost and games won. In the collegiate world, we had one of the very strongest teams in the East and proved that we are worthy of recognition in the Intercollegiate League. At present this league includes Yale, Harvard, Cornell, Columbia, Dartmouth, and Princeton.

With each package of Fatimas you get a漂亮 Cigarettes (12x20)–elaboration of 100.

Some cigarettes may be Greek to you but in plain English—Fatimas are Good.

No language can quite describe them—can quite describe that "distinctly different" taste.

But college men have a language of their own and their appreciation is expressed in the number of Fatimas they smoke.

20 for 15 cents. Packed inexpensively, and you get 10 additional.
