WEDNESDAY, MARCH 8, 1911

The recommendation of the A. A. that the hockey team be awarded the "T" this year is well taken. The team had a very successful season in spite of their shortcomings and the feline and canine families, should stop for a time on account of the boisterous behavior of several individuals of the class. The few men, who are so discourteous to the lecturer, who are so puerile in their actions, have no business in attending the course. They should be barred entirely throughout the season marked them as an untimely exhibition.

If he did I didn't see him! Then he proceeds to give what he states are the most important facts but which, if anything, are mere vague guesses. As to the members of our organization being former Tech Show men, there's nothing to it. We don't wish for a minute to deride the student who has been to Tech and anyone else, until St. Patrick's day in the evening.

As ever,
The Advance Agent.

HARE AND HOUND SATURDAY

Sophomores and Freshmen Should Start in First F Season

Saturday the first bare and hounds run of the season will be started at 3.30 from the Gym. Instead of two squads as is sometimes the case, some of the upper classmen will go with the men to advise them and overlook their work.

The freshmen and sophomores should come out for this run, as it will be excellent training for both the intercourse and the freshman-sophomore intercourse meet, which will be held in April, the former a couple of weeks before the Junior meet, and the other a week later.

As soon as the weather becomes suitable the 8.00 and 10.00 mile races will be held, and the hare and hounds runs will take place in the country, ending in the field as usual. As announced the election of officers will take place Friday at 1.00 in Room A of the Union.

As soon as the weather becomes suitable, and all the frost is out of the ground, the members of the Business Board will meet, which will be held in April, the former a couple of weeks before the Junior meet, and the other a week later.

In certain of the second-year lecture periods this week, the lecturer has had to stop for a time on account of the boisterous behavior of several individuals of the class. The few men, who are so discourteous to the lecturer, who are so puerile in their actions, have no business in attending a serious lecture course. They should be barred entirely from such courses until they are serious enough to appreciate and profit by them.

The man who feels that the darkness of the lecture hall is his cue to appear in amongst him, in impression of him, or amongst the fellow and canine families, should take an I. C. S. course, where he can perform at home to his heart's content.

If there is a student in Tech who is not familiar with Engineering News, let him write for a Free Sample Copy and see ourlegant. Mr. O. W. STEWART, about special subscription rates

ENGINEERING NEWS

I am disgust! Some freshman reporter of The Tech is attempting to deceive his readers with advance dope on the Grand Night of the Chocolates Sells. Did you read that front-page article yesterday? Well, forget it! Hardly a word of it is true; fabrication from the top to the bottom of the sheet.

WEDNESDAY, MARCH 8, 1911

The recommendation of the A. A. that the hockey team be awarded the "T" this year is well taken. The team had a very successful season in spite of their difficult schedule, but more than this, the spirit which they developed as a team and the individual grit that they showed through the season marked them as an exceptional team, worthy of the highest honor that we as their Institute can give them. We believe that every student here is anxious to see the letter awarded to them by the Advisory Council.

In certain of the second-year lecture periods this week, the lecturer has had to stop for a time on account of the boisterous behavior of several individuals of the class. The few men, who are so discourteous to the lecturer, who are so puerile in their actions, have no business in attending a serious lecture course. They should be barred entirely from such courses until they are serious enough to appreciate and profit by them.

The man who feels that the darkness of the lecture hall is his cue to appear in amongst him, in impression of him, or amongst the fellow and canine families, should take an I. C. S. course, where he can perform at home to his heart's content. At least, should he not attend lectures where his demonstrations will interrupt the lecture and his interested audience. Unlively exhibitions are not appreciated and serve merely to "be the vacant mind."

MINSTREL Dope for TODAY
