**New Little Umbrellas**

We take exquisite pleasure in presenting to you today, in addition to our valuable information on the coming events of Friday evening, a special souvenir photograph of one leader of the Chocolate Soldiers, Brother Alexander Johnson. The photo is the only one of its kind extinct.

**ALEXANDER JOHNSON.**

The staff photographer of the Chocolate Soldiers snapped up the accompanying likeness of the originator and chief of the great and glorious Minnie Band during a recent rehearsal. It is a perfect regal satirization of Brother Johnson in his make-up and posed for his big act, entitled "The Studebaker Night," which is offered with the realistic scenic accompaniment of "lights out." From the basso profundo, as Brother Johnson is to be seen from his masterly features, is a great bass man of the theatrical world. He has just originated the Chocolate Soldiers and Tech may consider it a remarkable fortune that she should be one of the first to witness his wonderful workings. Alexander has played black-face all over the world, having appeared before the Queen of Russia, the Czar of Holland, the King of Mexico, and all the prominent and honori.s of British East Africa. In fact, he has just returned from an extensive trip through Africa, studying the ways and means of the negro in order that his production may more the more striking and true to life.

Brother Johnson is good and a master of his profession, — but, take it from the Advance Agent, his supreme position in the minstrel world is seriously jeopardized by the minstrel world is seriously jeopardized by the minstrel world.

**First Seen in Boston at Hovey's—— "The India"**

The new "Little Umbrella With the Big Spread" is the umbrella which has aroused enthusiastic interest wherever shown.

A small umbrella having ten ribs (the ordinary one having but 8 or 9), unusually sturdy, resisting the tempest to turn inside out in high wind, yet delightfully light and portable when outspread, covering more than the usual space.

The edges of the ribs for about 3 inches are pliable; when extended and open a greater span is afforded than the ordinary kind, and the ladies will not break their feathers.

Handsome mission wood handles, coverings of union silk and pure silk.

Better protection from the rain and a great lessening of bulk and size.

This is an important addition to the history of umbrella construction.

We confidently prophesy a year in or so all umbrellas will be demanded upon this idea.

The men's size is of walking length, but with a 30-inch spread overhead instead of that possessed by the 28-inch regulation umbrella. We are pleased to be able to state that in a very short time we shall be offering many other grades at varying prices.
