in the concave joints of the tracks pro-
and it can be seen that in the case of a
commercial vehicle, that the time thus
expended is a very serious loss in addition
to the extra cost of carrying out the work.
The process is being extensively used
by street railway companies for the repair
of broken motorcases and also for filling
in the concave joints of the tracks pro-
duced by the hammer of the wheels at
the joints.

We have welded in teeth of a gear
twenty-two inch face, six and a half inch
diameter, weighing sixteen tons, and in case of a tooth of
pitch and fifteen feet in diameter, weigh-

20 in a simple chrysalis for
15 cents.

TECH MEN FIGURE
IN MEXICAN FRAZAC

The revolution in Mexico has an interest for Technology men inasmuch as the head of the revolution, Madero, is the father of three former students of the Institute—Alfonso, '01, Emilio, '02, and Julio, '03. One of the men connected with the revolution is Joseph Smith, a native of New York and the others are active engineers in the work, some of them in charge of the transportation of all the troops. The Madero family is one of the oldest and wealthiest in the state of Coahuila, and it is understood to be out
