COMMUNICATION
It seems most unfortunate that Junior Week should be the time selected for a copy suggested with school work. The whole idea of Junior Week is a time of relaxation from work, and all that goes with it. The only social activities like 5:00-6:30 advertised are take place at this time and the whole student body should be free to leave work and enjoy a few days of social pleasures.

The contemplated trip of the senior class of Electrical Engineers will occupy the whole of Junior Week and thus cause anyone who goes, to miss the whole round of activities—Technique Rush, the Spring Concert, the Show, and the Prom.

If the trip is advisable from an economical value, surely time should be taken non elsewhere, rather than from the long Gist of the Second Term.
