Every Member of Professional Society keep Date open—Tickets soon on

Sale.

Fifty years ago, or, to be exact, on April 10, 1861, an Act was passed by the General Court of Massachusetts to incorporate the Massachusetts Institute of Technology "for the purpose of instructing and maintaining a society of arts, a museum of arts, and a school of industrial science, and aiding generally by suitable means the advancement, development, and practical application of science with connection with arts, agriculture, manufacturing, and commerce."

A lot of State land in the Back Bay in Boston was set aside for the purpose of providing funds from the sale of the land to support the newly founded school. The Institute was authorized to hold property to an amount not exceeding two hundred thousand dollars, but by a lapse of time that has been permitted to hold property up to the present time.

A lot of State land in the Back Bay in Boston was set aside for the purpose of providing funds from the sale of the land to support the newly founded school. The Institute was authorized to hold property to an amount not exceeding two hundred thousand dollars, but by a lapse of time that has been permitted to hold property up to the present time.

Here, indeed, was the beginning of the greatest educational enterprise in America, and the young men who planned and indured with the old Technology spirit of the founders and early workers, the annual banquet to celebrate the fiftieth anniversary of the granting of this charter. The celebration is to be held on the evening of April 12th.

The Wednesday evening meeting of the Chemical Society promises to be an interesting laboratory of the General Electric Company at West Lynn. Following the meeting refreshments will be served. Mr. P. H. Rollet will be the speaker.
