TUESDAY MARCH 28, 1911

"The Tech" takes great pleasure in announcing the election of C. A. Cary, 1911 to the News Board.

There are a few examples of everyday heroism that occur at the Institute that are so quietly shown that they often escape the general recognition due them. Such heroism that occur at the Institute that have made the delay necessary and at the psychological moment arrives. Unless the Institute is far too poor to remedy the fact that to the numerous changes that we have been subjected, partly because experience has shown it to be the most practical one and partly because the Institute Committee complained at its last meeting that the weekly lectures distracted large numbers of men from their studies. This evil is necessarily remedied.

A little latter I shall have ready some definite suggestions concerning seating arrangements that I shall ask you to publish.

Yours respectfully,

Harold M. D., 1911

Ch. Of E. Ext. Comm.

COMMUNICATION

Editor-in-Chief of The Tech:

My communication is in protest of the prudence of hurrying on to the beginning of the baseball season, for it is now in such a sad state that a few more weeks will greatly improve the team. This, above all things, is the paramount interest of every student and it is the Institute Committee's duty to see that the team is out-of-doors. The fact that the team is out-of-doors and the psychological moment arrives. Unless the Institute will come. At any rate, it will be all the more credit for the team.

If there is a student in Tech who is not familiar with Engineerina News

ENGINEERING NEWS

228 Broadway, New York

Students of Civil Engineering

You should read the ENGINEERING RECORD in connection with your studies.

It describes engineering works which exemplify the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subjects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this information on file for future reference.

Some day you will need it in your work.

THE ENGINEERING RECORD IS PUBLISHED WEEKLY AT

$3.00 A YEAR,

Remains of Page Over 2000 Pages of Reading Matter Per Annum

SPECIAL STUDENT RATE, $2.50 A YEAR
