Technique Sign-up slips are being
circulated all over the Institute in order
to give everyone an opportunity to subscribe to
a book. This will practically be your last
chance to subscribe to the edition of this year and every book will probably
be accounted for before the rush, with
the exception of the books used in the rush.

The alumni will be given an opportunity
to get books which are not spoken for
by the under graduates, which means
that unless every man who intends to
subscribe to a book is accounted for before the rush, with
this exception, the rush will be definitely announced within a couple
of days and if the rush plan materializes
it will prove to be a very popular place
which will allow everyone to see the
atmospheric contrivances of the contentants.

The book is now in the press and will
go to the binders in another week. Several
new features are incorporated this year
and a well balanced color scheme is followed
throughout the book. The art work is
continually good and the cover design
is the best ever.

All in all, it is a well rounded out book
and it behooves every man, who wants to
make a name for himself at one will come to him.

If you do not see any of the Board in
your building during the next week, the
Technical office is open from four to six
every day.

has been borne by them. The books
seem to be very much appreciated and
are very useful to all the students at the
Institute.

The annual reception to the new men
at the opening of the year is open to
all the students at the Institute. It is
the opening for all branches of student
activities.

In the year future a number of men will
subscribe subscriptions and any help
will be very much appreciated and will be
very useful in getting into shape for next
year.

The Christian Association is planning to
have a snalized week next year with
a graduate secretary. A few students
have been teaching English to freshmen
and next year as opportunity will be
open to as many as can give up the time.
It is hoped that in a few years, the associa-
tion will be permanently located in a
dormitory of its own and plans are being
considered at present.
