Published weekly at 239 West Thirty-ninth Street, New York, N. Y. Entered as second-class matter, Sept. 20, 1910, at the post office at Boston, Mass., under the Act of Congress. April 5, 1914. Subscription rates $2.00 per year in advance. 

TUESDAY APRIL 4, 1911

A

A little more than two weeks are left before Junior Week so you had better get over to the Union some time this week from one to two, and sign up. The desk is there now and the sooner you sign up the better the seat numbers you will get.

If for any reason you desire extra programs, if you order them now you can get as many as you desire for a dollar a pair. They not only are useful souvenirs, but will make welcome gifts. Only those who have paid up can order extra programs.

No extra dances at all at the Prom so fill out any that are on and on the ordinary dance order. This has been arranged this way to do away with the usual confusion attendant upon the insertion of these extra dances.

You can secure now at the Union your admission ticket and invitation upon payment of your subscription. About a week before the Prom, you can get your seat number and final program.

In the case of house parties, other groups, and men wishing adjoin- ing seats at the Prom,.it will be necessary for application for same to be in order in which provision may be made.

Now is the time to get in line and have your name registered for the Prom. There are a lot of loose dances floating around the State, and no one should feel that it is too late to sign up.

The desk in the Union is there for the special purpose of handing out information concerning Prom. Come around and let us know that you are not a dead one. You don’t have to have five dollars to come and talk things over.

COMMUNICATION

Editor-in-Chief of the Tech:

In recent issue of your paper, that I see in recent issue of your paper, that I see... I paid the class 239 West Thirty-ninth Street

Your Patronage is Solicited

THE TECH, BOSTON, MASS., APRIL 4, 1911.

Students of Civil Engineering

You should read the ENGINEERING RECORD in connection with your studies.

It describes engineering works which exemplify the best practice in design and construction.

It will keep you in touch with the work of the leaders in all branches of civil engineering and construction.

It will make clear the practical applications of the engineering principles you are studying.

The RECORD is devoted exclusively to subects of interest to civil engineers.

Its volumes contain an immense amount of valuable technical and practical information on engineering work.

You should have this information on file for future reference. Some day you will need it in your work.

The Engineering Record is published weekly at $3.00 a year

Over 2000 Pages of Reading Matter Per Annum

Special Student Rate, $2.50 a year
