INTERMISSION

In between the sessions, the Institute's athletic teams will be on hand to entertain the audience with various games. A band from the Massachusetts Institute of Technology will also be featured, providing musical entertainment throughout the convention.

EVENING CONCERT

The evening concert will feature performances by the Boston Symphony Orchestra and the Boston Pops Orchestra. The program will include works by Beethoven, Mozart, and other classical composers. A fireworks display will conclude the evening's events.

PROCEEDINGS OF THE COMMISSION

The proceedings of the Commission on Science and Society will be reviewed, highlighting the progress made in advancing the field of science and its applications to society.

SCIENCE AND SOCIETY

A panel discussion on the role of science in society will be held. Participants will include leading scientists and sociologists, who will explore the implications of scientific advancements on societal values and norms.

REMARKS OF THE CHAIRMAN

The chairman of the Institute will deliver opening remarks, welcoming the attendees and outlining the objectives of the convention.

COMMITTEE REPORTS

Reports from various committees will be presented, providing updates on ongoing projects and initiatives.

SCIENTIFIC SESSIONS

Several scientific sessions will be held, featuring presentations on a wide range of topics, from physics and chemistry to biology and computer science.

FREE ASSISTANCE

Free assistance will be available to attendees, offering guidance and support on various topics related to science and technology.

COMMUNITY OUTREACH

The Institute will also participate in community outreach programs, including a science fair and a technology workshop for students.

CONCLUSION

The convention will conclude with a closing ceremony, featuring remarks from the Institute's leadership and a final addresses from prominent figures in science and technology.

THE ALUMNI REUNION

The alumni reunion will be held in conjunction with the convention, providing an opportunity for graduates to connect and celebrate their shared experiences.

I WONDER

How can we inspire a new generation of scientists and engineers to tackle the challenges of the future? What role can the Institute play in fostering innovation and discovery?

WHERE?

The convention will be held at the Boston Convention Center, located at 100 Revere Street, Boston, Massachusetts 02108. Free shuttle service will be provided to and from the convention center.

TECHNOLOGY CONGRESS (Continued from page 1)

any successful undertaking is the energy which goes into it. One personality which made this phase of the Institute's alumni program a success was William Barton Rogers who supplied his beloved with the snare of the lawn, with the necessary ingenuity and vision required for the successful outcome, and the accomplishment of the work.

In the second place, we may consider the great body of men—of $5,000 average—who are the backbone of the Institute in the sense that they provide the financial support without which the Institute would be unable to carry out its mission. These men have been given an opportunity to participate in the Institute's activities through the medium of the alumni association and the alumni program. By doing so, they have become active participants in the Institute's work and have contributed to its growth and development. It is indeed gratifying to see that such a large number of men who have been associated with the Institute in this way have come to appreciate its work and its potential for making a contribution to the advancement of knowledge and technology.

In closing, I would like to express my appreciation to all those who have made this convention possible. The Institute is grateful for the support and assistance of all who have contributed to its success.
