T CHNIQUE first made its appearance at the Institute in 1885. It was called Technique 85" but it was published by the class of 1887. Although it was but a pamphlet in form containing only 152 pages, yet it showed that there was a demand for such a publication. Two years later the editors of "Technique 1887" offered a cloth bound edition which proved to be very popular and from this time on the book has been improved upon until today it ranks as one of the best college annuals in the country.

The Board of Editors are elected by an Electorate Committee which is chosen by the entire Sophomore class and from among the members of the class. Great care is taken in electing men to the Board who are well up in their studies and although the Electorate Committee usually meets for their first meeting soon after the second term, it requires two meetings a week from then until the end of the year to elect the whole board of sixteen or seventeen men. Every man nominated is required to learn the meeting room, while his name is discussed and a searching examination is made of everything which points towards his desirability or undesirable for the position to which he was nominated. The three most important positions on the Board are Editor-in-Chief, Business Manager and Treasurer. The first named has complete oversight of all departments in the book besides writing the various special articles and good reading every bit of material before it goes to the printer. It becomes his duty then to personally supervise the arrangement of pages and the final printing of them as well to decide as the color schemes to be adopted.

H. E. KEBBON
Editor-in-Chief

The Business Manager has complete charge of all the advertising in the book, issues all contracts, supervises the work of his assistants assigning them work to be done and is responsible for the financial success of the book. The Treasurer handles all the funds, makes all necessary purchases, and takes care of all the figures necessary by having a copy of this issue mailed. See the Circulation Manager in the Upper Office.

Save money at the Central Dispensary by having a copy of this issue mailed. See the Circulation Manager in the Upper Office.

The Spring Concert begins at 8 P. M., Sharp.

ALUMNI, Don't forget your class dinners to-night. See the front page of this issue for Full Parades.

All kinds of Athletic Stunts will be pulled off at the Field this afternoon. Everybody be there and see the fun.

Of the 1,479 students at the Institute in 1909-10, 852 or 57.5% of the whole were from Massachusetts.

Last June, 19 candidates were recommended for the degree of Master of Science, and 132 for the degree of Bachelor of Science. For each instructor at the Institute there is an average of seven students.

Metcalf sells to Tech students each year about 2,000 gallons of milk-shakes, or enough to fill a pail three inches in diameter and 1.1 miles in length.

The registration for 1885-86 was 72, or 1909-10, it was 1,597.

The oldest living graduate of the Institute is Professor Robert H. Richards of the class of 1868.
