No. 7 Show Smallest Worn, Costumers in Desperate Straits

And They Smoke, Too!

Curious Tristes Attributed to Tech Show

Phony Footlight Favorites

Aren't they cute? Who? The sixteen

other fair maids were seated in a corner

noon a rehearsal was held that lasted

there is other scandal about these same
girls. Some one whispered that the actually saw smoke coming from one of

the dressing rooms and when he went

number ran so far above this mark, that

it was said that the thirty-two

in the center of the room, were three of

the prettiest girls he had ever seen; but

if they do act thus foolishly when they

a taste that he had never heard attributed

the show, he said that the thirty-two

Eugene Sanger is finished. These last

A letter has been received from Mr. Ackerman, the engineer of the Eastern Division, and he has promised to meet the party in deep water and to personally conduct the trip from that point. He states that the famous suction dredge "Gwamack" is now at work and there will be an opportunity to view this work as well as the ordinary type of dredging. In addition to the canal work, the party is most fortunate in being taken to both Car War, the largest in the country. Those who prefer may accompany Prof. Moore to the other end of the canal where there are two interesting and unique bridges.
